

- Targeted Runoff Management Grant Program (ch. NR 153)
- Notice of Discharge Program (ch. NR 153)
- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)

NOTICE: This Final Report is authorized under ss. 281.65 and 281.66., Wis. Stats., and chs. NR 153 and NR 155, Wis. Admin. Code. Personally identified information collected will be used for program administration and may be made available to requesters as required under Wisconsin Open Records Law [ss. 19.31-19.39, Wis. Stats.].

INSTRUCTIONS: Your grant agreement requires you to submit a Final Report with your final reimbursement request. This Final Report form must be used in conjunction with the "FINAL REPORT INSTRUCTIONS." The instructions detail how to complete and submit the report to DNR as described in the instructions.

1. GRANT TYPE. Check the one that applies.

<input type="checkbox"/> Urban Nonpoint Source & Storm Water Management Grant – Construction	<input type="checkbox"/> Urban Nonpoint Source & Storm Water Management Grant – Planning
<input checked="" type="checkbox"/> Notice of Discharge Grant	

2. PROJECT NAME & LOCATION.		
2.1. Project Name: Perry & Renee Kujak	2.2. Grant Number: TRC-BT02-61000-N12	
2.3. Governmental Unit Name: Trempealeau County Environment and Land Use Committee	2.4. Primary Watershed Name: Middle Trempealeau River	2.5. Watershed Code: BT02

NOTE FOR SECTION 2.6 (which follows):
 Section 2.6. includes five (5) columns (A. through E.) for recording data about five (5) discrete site locations. If your grant has more than five (5) discrete project locations, attach additional columns for Section 2.6 as described in the instructions. If your project occurs in more than one 12-digit Hydrologic Unit Code (HUC), use the space in adjacent columns to record other HUC numbers.

3. SUMMARY OF RESULTS.

Table A. Agricultural Projects. – Ch. NR 151 Performance Standards and Prohibitions and Other Water Resources Management Priorities

A.1. Management Measures	Units of Measure	Quantity	Measurement Method Used
Sheet, rill and wind erosion	Acres meeting "T"	500 acres	SNAPPLUS
Manure Storage Facilities: New Construction/Alterations	Number of facilities	facilities	
	Number of animal units	animal units	
Manure Storage Facilities: Closure	Number of facilities	facilities	
Manure Storage Facilities: Failing/Leaking Facilities	Number of facilities	facilities	
	Number of animal units	animal units	
Clean Water Diversions in WQMA	Pollutant load reduction	36 lbs.	Barny
	Number of farms with diversions	1 farms	
	Number animal units	450 animal units	
Nutrient Management on Agricultural Land	Acres planned	500 acres	SNAPPLUS
Prohibition: Manure Storage Overflow	Number of farms	farms	
	Number of animal units	animal units	
Prohibition: Unconfined Manure Pile in WQMA	Number of farms	farms	
Prohibition: Direct Runoff From Feedlot/Stored Manure	Pollutant load reduction	36 lbs.	Barny
	Number of facilities	1 facilities	
	Number of animal units	450 animal units	
Prohibition: Unlimited Livestock Access	Feet of bank protected	60 feet	Measured
	Number of farms	1 farms	

- Targeted Runoff Management Grant Program (ch. NR 153)
- Notice of Discharge Program (ch. NR 153)
- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)

Table A. Agricultural Projects. (continued)			
A.2. Other Management Measures	Units of Measure	Quantity	Measurement Method Used
Streambank & Shoreline Protection	Units (use feet, acres or number as applicable)	60t	Soil Loss Worksheet
	Pollutant load reduction (if method available)	12	
Other:	Units (use feet, acres or number as applicable)		
	Pollutant load reduction (if method available)		
Other:	Units (use feet, acres or number as applicable)		
	Pollutant load reduction (if method available)		
Other:	Units (use feet, acres or number as applicable)		
	Pollutant load reduction (if method available)		

Table B. Urban Construction Projects Serving Developed Areas.			
B.1. Required Management Measures	Units of Measure	Quantity	Measurement Method Used
20-40% Total Suspended Solids (TSS) Reduction for NR 216 communities	TSS reduced	lbs.	
	TSS reduction	%	
B.2. Other Management Measures			
20-40% Reduction in TSS for non-NR 216 communities	TSS reduced	lbs.	
	TSS reduction	%	
Infiltration	Pre-development stay-on volume	%	
	Stay-on volume	ft ³ /year	
Peak flow discharge for 2 year/24 hour design storm	Change in cubic feet per second for design year	ft ³ /sec	
Protective areas	Bank protected	feet	
Fueling & maintenance areas	Oily sheen presence reduced	<input type="checkbox"/> Yes <input type="checkbox"/> No	
Streambank & Shoreline Protection	Bank erosion reduced	tons	
	Bank protected	feet	
Other:	Pollutant load reduction (if method available)		
	Units (use feet, acres or number as applicable)

- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)

5. Additional Information. (Space will expand to fit your text.)

(Empty space for additional information)

6. Summary of Project Challenges. (Space will expand to fit your text.)

This project was a huge water quality benefit by eliminating unlimited livestock access to the stream and direct runoff from the feedlot to Reynolds Coulee as well. The landowner has updated his conservation plan and completed a nutrient management plan using SNAPPLUS.

7. Grantee Certification.

Checking here certifies that, to the best of your knowledge, the information contained in this report is correct.

Name of Authorized Representative (type or print) ↓

Kevin Lien

Title of Authorized Representative (type or print) ↓

Director, Land Management Department

Signature of Authorized Representative

12/31/2014

8. For Departmental Use Only.

Regional NPS Coordinator – Please complete the following:

8.A. Check here if you have received the following from the project sponsor:

- one (1) printed, signed, original Final Report + attachments
- one (1) electronic version of Final Report.

Send the printed, signed original Final Report with attachments + electronic version to the Community Financial Assistance Grants Manager. Community Financial Assistance will forward to Runoff Management Section Grants Coordinator.

8.B. Comments about this project: *A bit unusual in that a concrete cattle feeding lane that led directly to a stream was abandoned about 100 feet from the stream. The remaining feed lane further from the stream was kept intact. Abandoned section intact but cows are unable to access it. Stream bank was restored and stormwater from concrete cattle feeding lane is processed through a filter strip.*

December 31, 2014

Dear Mr. Kujak,

Thank you for your most recent efforts to improve and protect our state's water resources. This letter is to acknowledge that you have successfully implemented nonpoint source pollution control best management practices on your farm. Trempealeau County obtained Notice of Discharge Grant Funding (TRC-BT02-61000-N12) to provide you with cost-sharing to help you achieve compliance with the State of Wisconsin Performance Standards and Prohibitions as described in the table below.

Name and Citation of Standard/Prohibition <i>(Examples. List all that apply)</i>	Identification of Parcel Where Compliance Was Achieved <i>(Example: Include detail as needed.)</i>
NR 151.05(3) Manure storage closure	N/A
NR 151.05(2) New manure storage construction	N/A
NR 151.06(2) Clean water diversion	Farmstead 21N 7W S 21 NW SE
NR 151.08(2) No manure storage overflow	N/A
NR 151.08(3) No unconfined manure piles	All of WQMA on farm
NR 151.08(4) No direct runoff	Farmstead 21N 7W S 21 NW SE
NR 151.02 Sheet, rill and wind erosion	All cropland
NR 151.07 Nutrient management	All cropland
NR151.03 Tillage setback	All cropland
NR151.04 Phosphorus index	All cropland
NR151.055 Process wastewater handling	N/A

In accordance with ch. NR 151, Wis. Adm. Code, any cropland practice or livestock facility that is brought into compliance with a state performance standard or prohibition must remain in compliance in perpetuity regardless of future cost-sharing. Since you are now deemed in compliance with state standards and prohibitions as identified above, it is required that you and any future landowners or operators maintain compliance with the standards and prohibitions at the parcels identified.

Sincerely,

Carla J. Doelle
Zoning and Agriculture Conservation Specialist

Cc: DNR Regional Coordinator

Mr. Perry Kujak
W14419 Hillcrest Rd.
Blair, WI 54616

Subject: Satisfaction of Notice of Discharge – Category I

Dear Mr. Kujak:

The purpose of this letter is to acknowledge that you have implemented the necessary corrective actions at your farm located at W14419 Hillcrest Rd. (T21N R7W S21 NENW) in the Town of Preston that was requested in the Notice of Discharge (NOD) dated June 13, 2012. You received this notice to reduce or eliminate animal waste discharges from your livestock operation to Reynolds Valley Creek. Your NOD required that you take corrective measures to resolve the discharge from your livestock facility. Abandonment of a portion of the concrete feed lane that led to the creek and the construction of a new covered animal facility were completed in order to comply with the NOD.

Please be aware that it is now your responsibility to maintain this newly installed facility and associated manure. If you fail to maintain the corrective actions, the Department of Natural may take enforcement action under state law, issuance of a Notice of Discharge including referral to the Department of Justice pursuant to s. 283.29, and/or you may also be issued a WPDES permit.

Your efforts in this matter are appreciated and have contributed to improved water quality in Reynolds Valley Creek. If you have any questions or concerns, please contact me at (608) 785-9984.

Sincerely,

Cindy Koperski
Runoff Management Specialist
