Subject: Wolf Lake, FDL Co. Milfoil
Attachments: Results

Hi Amanda & Jen-

I was looking up a date of discovery for milfoil on Wolf Lake, Fond du Lac Co. (WBIC: 60800), and noticed that it was listed as being HWM confirmed on both the DNR website and in SWIMS. It is actually not HWM according to my records, as the testing done in 2013 came back as pure EWM (which is also noted in SWIMS; also see attached email).

Unless there was additional testing done I'm not aware of, I think this may be an error. Can you double check??

Thanks!
-Michelle
