

Just a quick note to inform you about the results of the Manitowoc River cleanup event on June 8, 2013. Here is the breakdown:

Total People = 17 (5 on foot at Manitou Park and 12 in watercraft)

Distance Cleaned = approximately two river miles (Manitou Park to the YMCA)

Total Litter Collected = 194.69 lbs

Most Interesting Items Found - Bicycle and Tricycle

I've attached some photo's for effect! It was a very good cleanup and I would like to thank Amy F. for being a leader, Joe M. for getting the YMCA involved, the LNRP for advertising the cleanup and everyone else who participated in our second annual river cleanup even. All of you helped make a difference.

I entered these photo's, and a couple of others, in the American River's annual photo contest.

Have a great weekend!
