RE: FERC Project No. 2113, Article 411 Compliance

In compliance with Article 411 of WVIC's FERC license, we are submitting our annual report summarizing the water quality data collected in 2017. The "Headwater/Tailwater (HWTW) Biweekly Monitoring at Man-Made Reservoirs Dissolved Oxygen and Water Temperature Report" contains the data collected for the "Biweekly Monitoring at Man-Made Reservoirs".

WVIC was unable to take one headwater/tailwater reading at Eau Pleine Reservoir in May due to high flows and two headwater readings in December due to ice. One reading is absent at Spirit Reservoir in February due to high flows and one reading in November and December due to dam construction activity.

If you have any questions or concerns please contact me at 715/848-2976 Ext. 304 or email ben@wvic.com.

Sincerely,

Ben Niffenegger,
Senior Environmental Specialist
