---

Greetings!

I am writing to you on behalf of the Fox-Wolf Watershed Alliance (FWWA) and the Northeast Wisconsin Stormwater Consortium (NEWSC). FWWA is a non-profit organization dedicated to finding cost effective solutions to improving water quality in Northeastern Wisconsin. NEWSC, a subsidiary of FWWA, has a membership of 42 municipalities who work together to meet WDNR stormwater requirements.

**This includes education and outreach to our community members.** We believe that teaching people of all ages about water quality is extremely important for the health of our lakes and rivers. **Since your school district falls into one of our NEWSC communities, we are excited to offer you the opportunity for additional classroom resources at NO CHARGE!**

**Presentations** – Enjoy hands-on lesson plans that are fun for your students. Fox-Wolf Watershed Alliance’s Outreach Coordinator will spend time in your classroom educating students on water quality issues – from simple water cycle lessons to in depth discussions about stormwater runoff pollution– ***we have lesson plans for any grade level!***

The curriculum materials include topics such as: pollution, stormwater runoff issues, watersheds, hydrology, soil conservation, urbanization, actions people can take at home to help, citizen monitoring, additional internet resources, and more.

**To schedule a FREE presentation today,** please contact Kelly Reyer at [Kelly@fwwa.org](mailto:Kelly@fwwa.org) or (920) 915-1502. Thank you! We look forward to hearing from you and hope to be a part of your upcoming lesson plans!

Sincerely,

*Kelly Reyer*

LESSON PLANS!

# Let us Teach your Students about our Watershed!

Look to the Fox-Wolf Watershed Alliance for hands-on lessons sponsored by NEWSC. Learn about our watershed!

The Fox-Wolf Watershed Alliance (FWWA) is a non-profit organization working to improve water quality in Northeastern Wisconsin. One way in which we do this is through outreach and education at a local level.

The Northeastern Wisconsin Stormwater Consortium (NEWSC) has a 41-municipality membership working specifically with storm water runoff impacts and Wisconsin DNR storm water permits.

Your school district falls within one of our NEWSC membership communities and therefore qualifies you for free curriculum and presentations in your classroom.

All presentations, curriculum, & activities are **FREE** to teachers!

During a 60-minute presentation, students will learn about the following topics through discussion and hands-on activities:

- ✓ Why water quality matters and how it will impact them in the future
- ✓ What a watershed is and how our choices influence it
- ✓ How urban storm water runoff influences our rivers and lakes
- ✓ Actions students can take at home to make a difference

*Water you waiting for? Schedule your free presentation today!!*
