"Pursuant to NR 1.02(7)(c), Wisconsin Administrative Code, the Department of Natural Resources gives public notice of the reclassification of 3.1 miles of Salzwedal Coulee Creek in Trempealeau County as a Class II brook trout water."

Salzwedal Coulee Creek is currently listed as Class III brook and brown trout water. It arises in Sec. 25, T20N, R7W, Town of Ettrick, and flows southeasterly to join the South Branch of Beaver Creek.

This classification is based upon a survey which indicates this portion of stream contains a population of trout made up of one or more age groups, above the age one year, in sufficient numbers to indicate substantial survival from one year to the next and has natural reproduction of trout occurring; however, stocking is necessary to fully utilize the available trout habitat or sustain the fishery.

The Department shall waive any hearing requirement on this classification unless a written request for hearing is received before January 2, 1987. Requests should be sent to:

James Talley, Department of Natural Resources, Route 4, Box 18,
Black River Falls, Wisconsin 54615-9204.
