

Notice: Application is hereby made to the Wisconsin Department of Natural Resources, Bureau of Watershed Management for grant assistance consistent with s. 281.66, Wis. Stats., and Chapter NR 155, Wis. Adm. Code. Collection of this information is authorized under the authority of s. 281.66, Wis. Stats. The information contained in this form will be used for program budget analysis and project evaluation in the Urban Nonpoint Source Water Pollution Abatement and Storm Water Management Grant Program. Personally identifiable information collected will be used for program administration and may be made available to requesters as required under Wisconsin's Open Records Law [ss. 19.31 - 19.39, Wis. Stats.]. *Unless otherwise noted, all citations refer to Wisconsin Administrative Code.*

Instructions: Complete all sections as applicable.

DNR Use Only

Project Information

A. Project Name

Village Of Belleville Stormwater Utility And Stormwater Master Plan

This document was drafted by the Department of Natural Resources.

**UNPS&SW Planning Program Grant Application –
CY 2008 Funding**

Form 8700-299A (R 1/07)

Page 2 of 11

UNPS&SW Grant Project Name
**Village Of Belleville Stormwater Utility And Stormwater
Master Plan**

Project Information (continued)

B. Project Area Location

County: Dane/Green

Minor Civil Division (city, village, town, etc.-example: Wrightstown, Village of)	Township (N)	Range (E/W)	Section
Belleville, Village of	5	8E	27,33,34
Belleville, Village of	4	8E	3

Please identify the latitude and longitude of a point located
approximately in the center of the planning area, and select the
"Method for Determining" the center point.

				Method for Determining (check one)
	Degrees	Minutes	Seconds	<input type="checkbox"/> GPS <input checked="" type="checkbox"/> DNR WebView or Surface Water Data Viewer <input type="checkbox"/> Other (specify):
Center Point Latitude (N)	89	32'	8"W	
Center Point Longitude (W)	42	51'	38"N	

C. Project Summary and Description

UNPS&SW Grant Project Name
**Village Of Belleville Stormwater Utility And Stormwater
Master Plan**

Project Information (continued)

1. STORMWATER UTILITY STAKEHOLDER EDUCATION & INVOLVEMENT-

Establish a stormwater finance task force composed of individuals representing the major stakeholder groups impacted by the utility. Engage members in activities and discussions over the course of four meetings aimed at educating them about the scope and cost of the Village's stormwater management program and financing alternatives.

2. STORM WATER UTILITY DEVELOPMENT AND IMPLEMENTATION

Develop and implement a stormwater utility establishing a dedicated source of revenue for funding the Village's stormwater management program activities and infrastructure construction, including tasks A through F, below.

- A. Scope and budget - Determine scope and budget of existing and planned future storm water program.
- B. Land Use Analysis and Rate Structure - Determine ERU size by measuring impervious area of statistically significant random sample of residential parcels. Measure the impervious area of non-residential parcels and calculate the number of ERUs assigned to each nonresidential parcel by measuring impervious area of every non-residential parcel and dividing by the ERU area. Calculate the charge per ERU by dividing the Owner's storm water management program budget by the total number of ERUs.
- C. Stormwater Utility Ordinance - Draft storm water utility ordinance.
- D. Master Account File - Develop master account file indicating the number of ERUs and credits assigned to each parcel.
- E. Public Education - Develop materials such as brochures, press releases, leaflets and/or an educational DVD aimed at educating the public about the nature and purpose of the stormwater user fee.
- F. Implementation Issues - Establish a protocol for answering customer billing questions and convert the utility parcel database into a customer database compatible with existing Village utility billing software.

3. ORDINANCES

- A. Stormwater Management- Amend existing ordinance to be consistent with NR 151.12.
- B. Illicit Discharge Detection and Elimination - Draft and adopt an ordinance consistent with NR 151.13.
- C. Low-Impact Development Ordinance- Draft and adopt ordinance standards for low-impact developments.

4. STORMWATER MASTER PLAN Develop a master plan for priority developed and developing areas of the Village, consistent with developed and developing area water quality and quantity requirements of NR 151, including the following activities:

- A. Hydrologic and Water Quality Modeling
- B. Alternatives Analysis and Recommendations

5. STORMWATER AND NON-POINT SOURCE PUBLIC EDUCATION

Expand the Village's existing public education program on runoff management activities to include a website and print materials, targeted educational workshops and/or hands-on education programs for school children.

D. Watershed and Waterbody (see Attachment A)				
Watershed Name	Township Name (for respective Town/Range/ Section, listed above)	Watershed Code (for respective Town/Range/ Section, listed above)	% of Project Area (for respective Town/Range/ Section, listed above)	Primary Waterbody (for respective Town/Range/Section, listed above)
Allen Creek/Middle Sugar River	Montrose & Exeter	SP13	15%	Sugar River
Upper Sugar River	Montrose	SP15	85%	Sugar River
			%	
			%	
			%	

Note: The planning project area can include more than one watershed. Do not submit separate applications for the same activity in each watershed.

Part I. Screening Requirements

Yes No A. Map

- ☒ ☐ An 8.5" x 11" topographic map from USGS or the DNR viewers, showing the project area, is attached.

B. Planning Activities For Which DNR Funding Is Requested (check all that apply)

- ☒ Storm water management planning (including plans for new and/or existing development).
☒ Ordinance development and administration (including construction site erosion control and/or storm water management).
☒ Evaluation and/or establishment of local financing options (such as storm water utilities).
☒ Public education and outreach.

- ☐ Other (specify):

(see **Attachment D** for additional planning activity information)

Yes No C. Filters

Note: You must be able to answer "Yes" to each of the following to be eligible for a grant.

- ☒ ☐ 1. Project is in an area that is urban or will be urban within 20 years. (see **Attachment B**)
☒ ☐ 2. Project will be completed within 24 months of the start of the grant period.
☒ ☐ 3. Staff and consultants designated to work on this project have adequate training, knowledge, and experience to implement the proposed project.
☒ ☐ 4. Staff or contractual services, in addition to those funded by this grant, will be provided if needed.
☒ ☐ 5. Planning products prepared under this grant will not work at cross-purposes to (are consistent with) non-agricultural performance standards under ch. NR 151. (see **Attachment E**)
☒ ☐ 6. The local DNR Regional Nonpoint Source Coordinator (see **Attachment C**) has been contacted about this project.

Name of the Regional Nonpoint Source Coordinator contacted	Date contacted	Subject of contact
Jim Amrhein	4/06	UNPS Grant Application
Jim Amrhein	3/27/07	UNPS Grant Application

- ☒ ☐ 7. Can you declare that at least one of the two statements below is TRUE?
Statement A. The grant application is for a local governmental unit that does have jurisdiction over the project area. (Jurisdiction over the project area means that the governmental unit has control over whether the planning recommendations are carried out.)
Statement B. The applicant does not have jurisdiction over the project area. The applicant is required to obtain a permit under subchapter I of ch. NR 216. Attached to this application is an intergovernmental agreement that meets the requirements of **Attachment H**.
☒ ☐ 8. Can you declare that at least one of the two statements below is TRUE?
Statement A. The applicant is not the University of Wisconsin Board of Regents.
Statement B. The applicant is the University of Wisconsin Board of Regents **and** the project will develop recommendations for a UW Campus area located in a municipality that meets **both** of the following criteria:
 - The municipality is required to obtain a municipal storm water permit under ch. NR 216;
 - The municipality is located either in a priority watershed or lake area identified under s. 281.65, Wis. Stats., or in an area of concern as identified by the International Joint Commission under the Great Lakes Water Quality Agreement.

If the governmental unit answered "No" to any of the items in Question C. above, stop here. This project is ineligible.

Part II: Minimum Qualifications

Question 1. Fiscal Accountability

A. Timeline and Source of Staff

For each applicable milestone listed below, fill in the appropriate data:

Milestone	Target Completion Date (month/year)	Source of Staff
Prepare preliminary scope of services and discuss with DNR NPS Coordinator	1/08	Village Staff & Village Consulting Engineer
Prepare Request for Proposal	1/08	Village Staff & Village Consulting Engineer
Select Consultant		
Finalize Scope of Service and Professional Services Contract	2/08	Village Staff, Consulting Engineer & Project Consultant
Get DNR Approval of Professional Services Contract	2/08	Village Consulting Engineer & Project Consultant
Hold "kick-off" meeting	2/08	Village Consulting Engineer & Project Consultant
Additional Milestones: (list below)		
Interim Meeting with DNR	1/09	Village Staff & Project Consultant
Presentation to Municipal Council	9/09	Village Staff & Project Consultant
Stormwater Utility Implementation	9/09	Village Staff & Consultant
Master Plan Complete	9/09	Project Consultant
Submit project and final report to DNR	11/08	Village Staff & Village Consulting Engineer

B. Adequate Financial Budget

Provide the following information for the project.

The state share may not exceed 70% of eligible costs. The grant amount is capped at \$85,000 for the eligible planning activities.

FINANCIAL BUDGET TABLE – PLANNING ACTIVITIES

A	B	C
Project Activity for which DNR Funding is Requested	Estimated Total Cost (\$)	Amount from Column B Eligible for DNR Cost Sharing (\$)
1. Stormwater Stakeholder Education	10,651	\$10,651
2. Stormwater Utility Development	0	\$0
A. Scope and Budget	4,392	\$4,392
B. Land Use Analysis and Rate Structure	\$17,314	\$17,314
C. Stormwater Utility Ordinance	\$3,025	\$3,025
D. Master Account File	\$2,094	\$2,094
E. Public Education & Implementation Issues	\$11,349	\$11,349
3. Ordinances	\$0	\$0
A. Stormwater Management	\$1,854	\$1,854
B. Illicit Discharge Detection and Elimination	\$2,369	\$2,369
C. Low-Impact Development	\$5,150	\$5,150
4. Stormwater Master Plan	\$0	\$0
A. Hydrologic and Water Quality Modeling	16,950	\$16,950
B. Alternatives Analysis and Recommendations	27,624	\$27,624
5. Nonpoint Source Education	\$7,210	\$7,210
1. Total	\$109,982	\$109,982

UNPS&SW Grant Project Name
Village Of Belleville Stormwater Utility And Stormwater Master Plan

Project Information (continued)

Eligible Costs:

2. 70% of column C, Total (1) above	\$76,987
Cap Test:	
3. Maximum State Share [Lesser of (2) or \$85,000]	\$76,987
State & Local Share:	
4. Requested State-Share Amount (=Requested Grant Amount)	\$54,991
5. Local-Share Amount [Total (1), column B less (4)]	\$56,593

Describe the Quality of Cost Estimates (in your description, discuss whether the cost estimate is based on a competitive bid, scope of services, similar projects conducted locally, similar projects conducted elsewhere in the state or region, or other more generalized data):

The project cost estimates were developed by the consulting Water Resources Engineer using the actual costs to complete similar projects conducted locally for similar-size communities. These projects were performed on a competitive bid process and can provide a fair assessment of costs.

Question 2. Project Evaluation Strategy

Yes No Information that will be developed and presented to DNR to evaluate the environmental benefits of completing this project. (check all that apply)

☒ ☐ A. Information that quantifies how project implementation is projected to decrease storm water impacts on state waters will be provided to DNR. The information may be provided as part of the planning product (e.g., storm water plan, I&E plan) or in the Final Report.

☒ ☐ B. Tracking

☒ ☐ 1. Information that tracks progress in carrying out recommendations of this project will be provided to the Department for one (1) to two (2) years after the project is completed.

2. Specify the number of years that tracking information will be provided, and describe in concept how this annual post-project tracking process will work:

The Village stormwater management plan will include recommendations, budget, and implementation timeline for projects and activities to reduce the volume and improve the quality of runoff discharged from the Village. The report will quantify the cost effectiveness of each project for reducing suspended solids in runoff as well as meeting their other stormwater permit standards. Belleville will provide a report detailing plan implementation progress and objective successes to the DNR for a minimum of two years following the end of the grant period. The reports will also provide a narrative relating their progress with their stormwater utility, master plan, public education, and involvement efforts. The Village will also track ordinance and implementation by keeping records of relevant permit applications and follow-up activities.

Question 3. Evidence of Local Support

Yes No The level of local support that currently exists for the proposed project.

A. **Government**

☒ ☐ 1. The local-share funds for the project expenses are already included specifically in an adopted budget.

OR

☐ ☐ 2. The local-share funds for the project expenses are or will be included in a proposed budget.

UNPS&SW Grant Project Name

**Village Of Belleville Stormwater Utility And Stormwater
Master Plan**

Project Information (continued)

- ☒ ☐ 1. There is community support specifically for the project in this application, and evidence of this support is included with the application submittal.
- OR
- ☐ ☐ 2. There is community support for addressing general water resource needs in the community, even though there may not be evidence of support for this specific project.

Question 4. Basin Priorities (check one)

- ☐ **A. Clean Water Act s. 303(d) List**
Project with water quality goals directly dealing with a water body (lake or stream) on the latest Clean Water Act (CWA) s. 303(d) List of Impaired Waters, where the cause of the impairment in nonpoint source pollution and the project will reduce the type of nonpoint pollutants for which the water is listed.
- ☒ **B. Outstanding and Exceptional Resource Waters**
Waterbody is included in s. NR 102.10 (Outstanding Resource Waters) and/or s. NR 102.11 (Exceptional Resource Waters).
- ☐ **C. NPS Rankings**
Project is located in a large-scale watershed, a small-scale watershed, lake watershed, or other area ranked high or medium on the NPS Rankings List, where the goals of the project are directly associated with the reason for the ranking on the NPS Rankings List.
- ☐ **D. Amendment of the NPS Rankings List Using State of the Basin Reports**
Project is located within a watershed ranked low or not ranked on the NPS Rankings List, but information in a DNR State of the Basin report indicates a need to amend the NPS Rankings List because the stream or stream segment or lake is being affected by nonpoint sources of pollution.
- ☐ **E. Amendment of the NPS Rankings List Using Other Data Sources**
Project is located within a watershed ranked low or not ranked on the NPS Rankings List, but adequate data exists to request a ranking of high or medium for a waterbody that is being affected by nonpoint sources of pollution.
- ☐ **F. Sources of Information for Areas Not Included in State of the Basin Reports**
For some border waters, there is no State of the Basin report (i.e., along the Mississippi River or the Great Lakes). For these situations, another governmental document, accepted by the Regional NPS Coordinator, can be used to classify the resource as having a significant nonpoint source pollution impairment.
- ☐ **G. Not Included in Other Categories Above**
50% or more of the planning area is not included in the categories above (A-F).

Part III. Competitive Elements

Question 5. Water Quality Needs

For each watershed in the project area, identify the category that best identifies the project goals. If more than one category is checked (because the project area contains more than one watershed), estimate the portion of the project area to be assigned to each category.

Note: For border waters where a State of the Basin Report does not exist, another governmental document acceptable to the Regional Nonpoint Source Coordinator may be used to identify the water quality need.

Percent of
Project Area

Surface Water Considerations

☐

A. 303(d) Listed Waterbody

Project with water quality goals directly dealing with a water body (lake or stream) on the latest Clean Water Act (CWA) s. 303(d) List of Impaired Waters, where the cause of the impairment in nonpoint source pollution and the project will reduce the type of nonpoint pollutants for which the water is listed.

☐

B. Not Fully Meeting Uses

A waterbody (lake or stream) identified in a DNR State of the Basin report as not meeting or partially meeting designated uses due to nonpoint sources, but is not on the 303(d) List.

☐

C. Threatened Waterbody

A waterbody (lake or stream) viewed as "threatened" by nonpoint sources in a DNR State of the Basin report.

☒

100%

D. Outstanding or Exceptional Resource Waters

Prevention of degradation due to nonpoint sources of outstanding or exceptional resource waters or high quality, recreationally significant waters, but not including waters listed as "threatened."

☐

E. Surface Water Quality

Prevention of degradation of surface water quality due to nonpoint sources. Waters in this category are neither high quality, recreationally significant waters nor "threatened" waters.

Groundwater Considerations*

☐

F. Exceeds Groundwater Enforcement Standard

Groundwater within the project area where representative information indicates that stormwater pollutants in groundwater exceed the Enforcement Standard (ES).

☐

G. Groundwater Quality (see Attachment G)

The project area is within a geological area defined in Attachment G as susceptible to groundwater contamination.

☐

H. Exceeds Groundwater Preventive Action Limit

Groundwater within the project area where representative information indicates that stormwater pollutants in groundwater exceed the Preventive Action Limit (PAL).

*Consult the Regional Drinking Water and Groundwater Specialist or the County Extension office.

Bonus Points (see Attachment F):

Yes

No

☐
☒

Water quality goals relate to the control of nonpoint source contaminants in public drinking water supplies.

1.

If yes, and the source of drinking water affected by the project area is groundwater, the project protects:

☐

a. One wellhead

OR

☐

b. More than one wellhead

2. If yes, and the source of drinking water affected by the project area is surface water, check the source water assessment area in which the project is located. If more than one assessment area is checked (because the project area contains more than one watershed), estimate the portion of the project area to be assigned to each category.

	Source Water Drainage Area	Portion of Project in Assessment Area (%)
<input type="checkbox"/>	Pike River & Creek	
<input type="checkbox"/>	Root River	
<input type="checkbox"/>	Oak Creek	
<input type="checkbox"/>	Milwaukee River	
<input type="checkbox"/>	Sauk Creek	
<input type="checkbox"/>	Sheboygan & Onion Rivers	
<input type="checkbox"/>	Manitowoc River	
<input type="checkbox"/>	Twin Rivers	
<input type="checkbox"/>	Kewaunee & Ahnapee Rivers	
<input type="checkbox"/>	Menominee River	
<input type="checkbox"/>	Fish Creek	
<input type="checkbox"/>	St. Louis & Nemadji Rivers	
<input type="checkbox"/>	Lake Winnebago	

Question 6. Extent of Pollutant Control

A project can consist of one or more of the following parts (A-F). For each part below, check the boxes that describe work products that will be produced under this grant. Do not check boxes based on prior work.

A. Ordinances

The project will develop or complete one or more of the following ordinances, including associated information, education and public participation activities. (check all that apply)

- ☐ 1. Construction erosion control ordinance including all the requirements of s. NR 151.11.
- ☒ 2. Storm water ordinance for new development and re-development including all the requirements of s. NR 151.12.
- ☒ 3. Low impact development/conservation subdivision ordinances.
- ☒ 4. Other ordinances such as an illicit discharge ordinance, storm water ordinances affecting runoff from developed urban areas (e.g., pet waste management ordinances, nutrient management ordinances), or ordinances that regulate the application of fertilizers to non-municipal properties in accordance with NR 151.14

B. Financing Mechanisms

The project will evaluate financing mechanisms for storm water management, including associated information, education and public participation activities. Recommendations will be presented to the governing board for approval and DNR will be notified of the governing board's action. (check one of the following)

- ☒ 1. The project develops a dedicated revenue source, such as a storm water utility, to implement a storm water program focusing on implementation of performance standards in Subchapter III of ch. NR 151.

OR

- ☐ 2. The project is a general feasibility analysis of alternative funding mechanisms.

C. Storm Water Plan for Developed Urban Areas

The project will develop a storm water management plan for developed urban areas that addresses all of the performance standards under s. NR 151.13 including associated information, education and public participation activities. (check one of the following)

- ☐ 1. This project will cover the entire geographic area of the governmental unit.
OR
- ☒ 2. This project will cover only part of the geographic area of the governmental unit.

D. Storm Water Plan for New or Redevelopment

The project will develop a storm water management plan for new development and re-development that addresses all of the performance standards under s. NR 151.12 including associated information, education and public participation activities. (check one of the following)

- ☐ 1. This project will cover the entire geographic area of the governmental unit.
OR
- ☒ 2. This project will cover only part of the geographic area of the governmental unit.

UNPS&SW Grant Project Name

Village Of Belleville Stormwater Utility And Stormwater Master Plan

Project Information (continued)

E. Information & Education Program

- ☒ The project will develop and/or implement an information and education program. (This does not include the information and education activities required as part of project under A. through D., above.)

F. Inter-Municipal Cooperation (bonus)

- ☐ This project is being conducted as part of an inter-governmental storm water management strategy for a common water resource. Describe the inter-governmental effort that will be used to complete the project. If more than one local unit of government is joining in this project application, (a "joint application"), then an inter-governmental agreement meeting the requirements of **Attachment H**, must be submitted with this application.

Question 7. Consistency with Resource Management Plans

Yes No

A. Consistency with Resource Management Plans

- ☒ ☐ The project implements a water quality recommendation specifically included in a locally approved resource management plan.

B. Summarize the water quality recommendation from the local plan. Cite the name and date(s) of publication of the document.

- ☒ ☐ 1. A construction site erosion control ordinance consistent with the performance standards of s. NR 151.11.

The Village's Current Erosion Control and Stormwater Management Ordinance (modeled after the Dane County Ordinance) is as or more restrictive than the NR 151.11 erosion control performance standards. These standards are rigorously enforced by the Village.

- ☐ ☒ 2. A storm water management ordinance consistent with the performance standards of s. NR 151.12.

The Village's Current Erosion Control and Stormwater Management Ordinance (modeled after the Dane County Ordinance) is as or more restrictive than the performance standards of NR 151.12 in all areas except infiltration. The Village will update their ordinance to be consistent with all of the NR 151.12 stormwater performance standards as part of the project to be funded by this grant. These standards are rigorously enforced by the Village in an effort to maintain the quality of the Sugar River and Lake Belle View.

Question 8. Use of Additional Funding

Yes No

- ☒ ☐ Funding requested is below the 70% cost-share rate and below the \$85,000 cap.

Question 9. City of Racine

Yes No

- ☐ ☒ This is an application from the City of Racine for a project that is necessary for the city to comply with state storm water permitting requirements.

Part IV. Eligibility for Multipliers

Completion of this part of the application is optional. However, an applicant can increase the final project score by qualifying for a project multiplier.

Local Implementation Program (select all that are in place as of the application submittal date)

Yes No NA

- ☒ ☐ A. The governmental unit is implementing a pollution prevention information and education program targeted for property owners and other residents.
- ☒ ☐ ☐ B. The governmental unit is implementing a nutrient management plan for municipally owned properties of at least five (5) acres of pervious area where nutrients are applied.
- ☒ ☐ C. The governmental unit is tracking storm water permitting activity (construction and post-construction) in the governmental unit and can make summary information available to the DNR upon request.

Optional Additional Information

Carefully review the answers to all of the questions above. Is there additional information that will add to the understanding of this project? If so, describe here.

Summary of Water Quality Recommendation from Local Plans (Question 7B)

"Vigorously enforce and expand comprehensive erosion control and stormwater management requirements beyond the minimum standards of Dane County Ordinance, chap. 14, to protect the Sugar River and its tributaries from the adverse impacts of development.

Prepare a stormwater management plan for the Village, including practices to protect the water quality of the Sugar River and Lake Belle View, and protecting the groundwater from the infiltration of untreated stormwater. Take steps to reduce peak hydrologic flows regionally and improve the quality of stormwater through implementation of best management practices."

-Dane County Water Quality Management Plan 2005

Other Information

The Village of Belleville has already completed a stormwater utility feasibility study, and has elected, based on study results, to proceed with the creation of a stormwater utility.

The Village of Belleville has been working with the USACE to restore Sugar River and Lake Belle View for the past 10 years. The Village will use Federal Section 206 Funding for the "Lake Belle View Aquatic Ecosystem Restoration Project".

The proposed project has widespread public support. Included in this application are letters of support from thirteen local businesses, organizations, and elected officials, as well as resolution of support from the Village Board.

Applicant Certification

An Authorized Representative must sign and date the application form prior to submittal to the DNR. All four (4) copies must include the signature of the Authorized Representative.

I certify that, to the best of my knowledge, the information contained in this application and attachments is correct and true.

Signature of Authorized Representative

Date Signed

Paul E. Ziehli

RESOLUTION 2007-3-4

URBAN NONPOINT SOURCE GRANT PROGRAM RESOLUTION

RESOLUTION OF SUPPORT FROM THE VILLAGE OF BELLEVILLE COUNTIES OF DANE AND GREEN, WISCONSIN

WHEREAS the Village Board of the Village of Belleville supports the efforts to secure a Wisconsin Department of Natural Resources Urban Nonpoint Source and Stormwater Planning Grant; and

WHEREAS the Village Board Trustees realize the funding will allow the Village to develop a Stormwater Management Plan for undeveloped areas, perform a stormwater utility feasibility study and formation of a stormwater utility, and;

WHEREAS the Village Board realizes that funding will help the development of erosion control and stormwater management ordinances consistent with state runoff standards and developing an illicit discharge ordinance; and

WHEREAS the Village of Belleville Stormwater Plan and utility will provide long-range stormwater and water-quality protection for the Village, surrounding watershed communities, and Wisconsin; and

WHEREAS the Village realizes that excess nutrients promote algae and weed growth in Lake Belle View, it will conduct soil tests on all public parcels covering five acres or more where nutrients are applied, and apply nutrients only accordance with a nutrient management developed based on the results of soil testing, effective immediately; and

WHEREAS the Village realizes the importance of tracking stormwater and erosion control permit activity it will implement a system for permit tracking effective immediately; and

WHEREAS the Village understands that public education about how residents can reduce nonpoint source stormwater pollution through their everyday activities, the Village will post information their website on this subject and make brochures available at Village Hall, effective immediately; and

WHEREAS the Village of Belleville further realizes that funding would assist the development of a timeline and strategy to track progress of our stormwater program implementation effort for up to two years after the end of the grant period, and that the Village will provide this information to the DNR in a report at the end of the tracking period.

IT IS, THEREFORE, RESOLVED THAT: The Village of Belleville's commitment to protecting their watersheds and other natural resources shows through their efforts in seeking such assistance available from the Wisconsin Department of Natural Resources under the Urban Nonpoint Source and Stormwater Planning Grant.

BE IT FURTHER RESOLVED THAT the Village of Belleville will meet the financial obligations of the Urban Nonpoint Source and Stormwater Planning Grant of approximately \$60,000 which reflects our 50% commitment to project costs.

Adopted this 19th day of March, 2007

By a vote of: 5 in favor 0 against 0 abstain

By: Paul C. Ziehli
Paul C. Ziehli, Village President
Village of Belleville

BUDGET RESOLUTION NUMBER 1-2007

A Resolution changing the 2007 budget of the Village of Belleville, Wisconsin, adopted by a two-thirds majority vote of the entire Village Board.

BE IT RESOLVED by the Village Board of the Village of Belleville the following:

- 1-1. That upon award of the Urban Nonpoint Source and Storm Water Planning Grant, the General Fund - Undesignated Funds transfers \$60,000.00 to EXPENDITURE account 500-00-53480-001-005, Engineer, Stormwater Management, leaving a new budget of \$60,000.00 which reflects our 50% commitment to project costs such as development of a Stormwater Management Plan for undeveloped areas, perform a stormwater utility feasibility study, formation of a stormwater utility, the development of erosion control and stormwater management ordinances consistent with state runoff standards and development of an illicit discharge ordinance.

REPLY TO

March 21, 2007

Planning, Programs and Project
Management Division

Mr. Paul Ziehli
President
Village of Belleville
PO Box 79
Belleville, Wisconsin 53508

Dear Mr. Ziehli:

We understand that the Village of Belleville is applying for a grant from the Wisconsin DNR for Urban Nonpoint Source and Storm Water Planning. The Army Corps of Engineers supports your efforts to reduce erosion and the effects of stormwater discharge. These efforts are consistent with, and will contribute to, the Lake Belle View Section 206 Aquatic Ecosystem Restoration Project.

We support the Village's commitment to protecting the watershed and natural resources. Please let us know if we can be of further assistance. If you have any questions regarding this matter, please contact Camie Knollenberg at (309) 794-5487.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary L. Loss", is written over a horizontal line.

for Gary L. Loss, P.E.
Chief, Planning, Programs and
Project Management Division

JON ERPENBACH

S T A T E S E N A T O R

March 8, 2007

To Whom It May Concern:

I am writing today in support of the Village of Belleville's application to receive a grant from the Wisconsin Department of Natural Resources for Urban Nonpoint Source and Storm Water Planning. I appreciate your full consideration in this matter.

The Village Board has developed a comprehensive Water Planning package that includes the development of a Storm Water Management Plan for undeveloped areas, a storm water utility feasibility study and utility implementation plan, and the development of erosion control and storm water management ordinances consistent with state runoff standards.

The Village of Belleville has a long-standing commitment to protecting the watershed and other natural resources. The Storm Water Plan and new utility will provide long-range storm water and water-quality protection for the Village, surrounding watershed communities, and the State of Wisconsin as a whole.

Thank you again for your time and consideration. If you have any question, please do not hesitate to contact my office.

Sincerely,

JON ERPENBACH
State Senator
27th Senate District

JE/rdd

BRETT H. DAVIS

WISCONSIN STATE REPRESENTATIVE

80TH ASSEMBLY DISTRICT

March 9, 2007

Village of Belleville
Attn: Paul Ziehli
P.O. Box 79
Belleville, WI 53508

Dear Mr. Ziehli:

We understand that the Village of Belleville is interested in receiving a grant from the Wisconsin DNR for Urban Nonpoint Source and Storm Water Planning. We fully support your efforts in this regard. Developing a Stormwater Management Plan for undeveloped areas, performing a stormwater utility feasibility study and formation of a stormwater utility, the development of erosion control and stormwater management ordinances consistent with state runoff standards and developing an illicit discharge of ordinance are all admirable projects.

The Village's commitment to protecting its watersheds and other natural resources shows through your efforts in seeking such assistance as this grant will provide. The Stormwater Plan and utility will provide long-range stormwater and water-quality protection for the Village, surrounding watershed communities and Wisconsin.

Sincerely,

Brett Davis
State Representative

Dear Mr. Ziehli:

We understand that the Village of Belleville is interested in receiving a grant from the Wisconsin DNR for Urban Nonpoint Source and Storm Water Planning. The Belleville Planning Commission fully supports your efforts in this regard. Developing a Stormwater Management Plan for undeveloped areas, performing a stormwater utility feasibility study and formation of a stormwater utility, the development of erosion control and stormwater management ordinances consistent with state runoff standards and developing an illicit discharge of ordinance are all admirable projects.

The Village's commitment to protecting their watersheds and other natural resources shows through your efforts in seeking such assistance this grant will provide. The Stormwater Plan and utility will provide long-range stormwater and water-quality protection for the Village, surrounding watershed communities, and Wisconsin.

Sincerely,

Terry Kringle, Chair
Belleville Planning Commission

Village of Belleville
Attn: Paul Ziehli
P.O. Box 79
Belleville, Wisconsin 53508

Dear Mr. Ziehli:

I understand that the Village of Belleville is interested in receiving a grant from the Wisconsin DNR for Urban Nonpoint Source and Storm Water Planning. I fully support your efforts in this regard. Developing a Storm Water Management Plan for undeveloped areas, performing a storm water utility feasibility study, forming a storm water utility, developing erosion control and storm water management ordinances consistent with state runoff standards and developing an ordinance to define and prohibit illegal discharges will contribute to improving water quality in and around Belleville, especially in the lake and the Sugar River.

The Village's commitment to protecting your watersheds and other natural resources is evident as you seek such assistance this grant will provide. The Storm Water Plan and utility will provide long-range storm water and water-quality protection for the Village, surrounding watershed communities, and Wisconsin.

Sincerely,

Kathleen M. Falk
Dane County Executive
