**C. Project Summary and Description**

The Village of Elm Grove is applying for UNPS and SW Planning Program Funding for a Comprehensive Village - Wide Storm Water Management Plan to detail existing and proposed storm water quality conditions and recommended improvements. The Village of Elm Grove seeks to protect and improve the water quality of Underwood Creek and of the Menomonee River Watershed, of which the Village is a part. Protecting these valuable resources is a priority for both the Village and its constituents.

One of the first steps towards preservation and protection of these resources is to complete a storm water management plan. The successful implementation of a comprehensive storm water management program will result in a significant improvement of water quality throughout the Village and the watershed in which it is located. This plan is designed to be an effective planning tool for existing conditions and future development and redevelopment. The Village is taking a proactive approach toward storm water management and the plan will include implementation of the Village's WPDES Storm Water Permit. The scope of the study will include 1) examination of existing conditions; 2) performance of a water quality analysis for the entire Village using the Source Loading and Management Model (SLAMM); 3) development and analysis of alternatives to produce a recommended plan meeting the Village's goals and the requirements of the WPDES Permit; 4) evaluation of existing ordinances for water quality goals; 5) development of public education and involvement programs; 6) development of an illicit discharge detection and elimination program and ordinance; 7) analysis of existing municipal operations for permit compliance; 8) prioritization and performance of a fiscal analysis of the recommended improvements; and 9) completion of a report summarizing the findings and recommendations of the plan.

**UNPS&SW Planning Program Grant Application –  
CY 2008 Funding**

Form 8700-299A (R 1/07)

Page 3 of 11

UNPS&SW Grant Project Name  
**Village Of Elm Grove Storm Water Management Plan**

**Project Information (continued)**

**D. Watershed and Waterbody (see Attachment A)**

Watershed Name	Township Name (for respective Town/Range/ Section, listed above)	Watershed Code (for respective Town/Range/ Section, listed above)	% of Project Area (for respective Town/Range/ Section, listed above)	Primary Waterbody (for respective Town/Range/Section, listed above)
<b>Menomenee River Watershed</b>		<b>MI03</b>	<b>100%</b>	<b>Underwood Creek</b>
			%	
			%	
			%	
			%	

Note: The planning project area can include more than one watershed. Do not submit separate applications for the same activity in each watershed.

**Part I. Screening Requirements**

Yes No

**A. Map**

- An 8.5" x 11" topographic map from USGS or the DNR viewers, showing the project area, is attached.

**B. Planning Activities For Which DNR Funding Is Requested (check all that apply)**

- Storm water management planning (including plans for new and/or existing development).  
 Ordinance development and administration (including construction site erosion control and/or storm water management).  
 Evaluation and/or establishment of local financing options (such as storm water utilities).  
 Public education and outreach.

Other (specify):

(see **Attachment D** for additional planning activity information)

Yes No

**C. Filters**

Note: You must be able to answer "Yes" to each of the following to be eligible for a grant.

1. Project is in an area that is urban or will be urban within 20 years. (see **Attachment B**)  
  2. Project will be completed within 24 months of the start of the grant period.  
  3. Staff and consultants designated to work on this project have adequate training, knowledge, and experience to implement the proposed project.  
  4. Staff or contractual services, in addition to those funded by this grant, will be provided if needed.  
  5. Planning products prepared under this grant will not work at cross-purposes to (are consistent with) non-agricultural performance standards under ch. NR 151. (see **Attachment E**)  
  6. The local DNR Regional Nonpoint Source Coordinator (see **Attachment C**) has been contacted about this project.

Name of the Regional Nonpoint Source Coordinator contacted	Date contacted	Subject of contact
<b>Ben Benninghoff</b>	<b>4/10/07</b>	<b>Storm water management plan and UNPS Planning Grant information.</b>

7. Can you declare that at least one of the two statements below is TRUE?  
Statement A. The grant application is for a local governmental unit that does have jurisdiction over the project area. (Jurisdiction over the project area means that the governmental unit has control over whether the planning recommendations are carried out.)  
Statement B. The applicant does not have jurisdiction over the project area. The applicant is required to obtain a permit under subchapter I of ch. NR 216. Attached to this application is an intergovernmental agreement that meets the requirements of **Attachment H**.
8. Can you declare that at least one of the two statements below is TRUE?  
Statement A. The applicant is not the University of Wisconsin Board of Regents.  
Statement B. The applicant is the University of Wisconsin Board of Regents **and** the project will develop recommendations for a UW Campus area located in a municipality that meets **both** of the following criteria:
- The municipality is required to obtain a municipal storm water permit under ch. NR 216;
  - The municipality is located either in a priority watershed or lake area identified under s. 281.65, Wis. Stats., or in an area of concern as identified by the International Joint Commission under the Great Lakes Water Quality Agreement.

**If the governmental unit answered "No" to any of the items in Question C. above, stop here. This project is ineligible.**

**Part II. Minimum Qualifications**

**Question 1. Fiscal Accountability**

**A. Timeline and Source of Staff**

For each applicable milestone listed below, fill in the appropriate data:

Milestone	Target Completion Date (month/year)	Source of Staff
Prepare preliminary scope of services and discuss with DNR NPS Coordinator	<b>See Attached - Page 12 for the complete Timeline.</b>	
Prepare Request for Proposal		
Select Consultant		
Finalize Scope of Service and Professional Services Contract		
Get DNR Approval of Professional Services Contract		
Hold "kick-off" meeting		
Additional Milestones: (list below)		
Interim Meeting with DNR		
Presentation to Municipal Council		
Submit project and final report to DNR		

**B. Adequate Financial Budget**

Provide the following information for the project.

The state share may not exceed 70% of eligible costs. The grant amount is capped at \$85,000 for the eligible planning activities.

FINANCIAL BUDGET TABLE – PLANNING ACTIVITIES

A	B	C
Project Activity for which DNR Funding is Requested	Estimated Total Cost (\$)	Amount from Column B Eligible for DNR Cost Sharing (\$)
Existing System Inventory	5,000	\$5,000
Develop Storm Sewer Map	10,000	\$10,000
Describe Existing Management Programs	3,000	\$3,000
Evaluate Existing Public Works Facilities	\$4,000	\$4,000
Erosion Control and Storm Water Ordinance Review and Update	\$6,000	\$6,000
Public Education and Participation Programs	\$6,000	\$6,000
Water Quality Analysis	\$15,000	\$15,000
Water Quality Improvements	\$10,000	\$10,000
Develop Illicit Discharge Program and Ordinance	\$4,000	\$4,000
Fiscal Analysis	\$6,000	\$6,000
Implementation Plan	\$5,000	\$5,000
Report and Presentation to Village Board	\$5,000	\$5,000
<b>1. Total</b>	<b>\$79,000</b>	<b>\$79,000</b>

UNPS&SW Grant Project Name  
**Village Of Elm Grove Storm Water Management Plan**

**Project Information** (continued)

**Cost-Sharing Worksheet**

**Eligible Costs:**

2. 70% of column C, Total (1) above	\$55,300
Cap Test:	
3. Maximum State Share [Lesser of (2) or \$85,000]	\$55,300
State & Local Share:	
4. Requested State-Share Amount (=Requested Grant Amount)	<b>\$55,300</b>
5. Local-Share Amount [Total (1), column B less (4)]	\$23,700

Describe the Quality of Cost Estimates (in your description, discuss whether the cost estimate is based on a competitive bid, scope of services, similar projects conducted locally, similar projects conducted elsewhere in the state or region, or other more generalized data):

**Cost estimates were provided by Ruekert & Mielke, the contracted Village Engineering Firm who has experience with similar projects for neighboring municipalities, and were based on an estimated work effort and hourly rates.**

**Question 2. Project Evaluation Strategy**

- |                                     |                          |  |
|-------------------------------------|--------------------------|--|
| Yes                                 | No                       | Information that will be developed and presented to DNR to evaluate the environmental benefits of completing this project. (check all that apply)  |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | A. Information that quantifies how project implementation is projected to decrease storm water impacts on state waters will be provided to DNR. The information may be provided as part of the planning product (e.g., storm water plan, I&E plan) or in the Final Report. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | B. Tracking  |
|                                     |                          | 1. Information that tracks progress in carrying out recommendations of this project will be provided to the Department for one (1) to two (2) years after the project is completed.  |
|                                     |                          | 2. Specify the number of years that tracking information will be provided, and describe in concept how this annual post-project tracking process will work:  |

**A. The Storm Water Management Plan, documenting how the recommendations proffered in the plan will decrease pollutant loads in Underwood Creek, will be submitted to the DNR.**

**B. The proposed timeline, submitted in the Fiscal Accountability section of the application, will be used to track the development of the plan. In addition, the Village will track the implementation of the plan by submitting annual reports to the DNR for two years following the completion of the study for the purposes of informing the DNR of the schedule and results of all proposed control measures.**

**Question 3. Evidence of Local Support**

- |                                     |                          |  |
|-------------------------------------|--------------------------|--|
| Yes                                 | No                       | The level of <u>local support</u> that <u>currently</u> exists for the proposed project.                         |
|                                     |                          | A. <b>Government</b>   |
| <input type="checkbox"/>            | <input type="checkbox"/> | 1. The local-share funds for the project expenses are already included specifically in an <u>adopted</u> budget. |
|                                     |                          | <u>OR</u>  |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | 2. The local-share funds for the project expenses are or will be included in a <u>proposed</u> budget.           |

UNPS&SW Grant Project Name

Village Of Elm Grove Storm Water Management Plan

**Project Information** (continued)

**B. Community**

1. There is community support specifically for the project in this application, and evidence of this support is included with the application submittal.
- OR
2. There is community support for addressing general water resource needs in the community, even though there may not be evidence of support for this specific project.

**Question 4. Basin Priorities** (check one)

- A. Clean Water Act s. 303(d) List**  
Project with water quality goals directly dealing with a water body (lake or stream) on the latest Clean Water Act (CWA) s. 303(d) List of Impaired Waters, where the cause of the impairment in nonpoint source pollution and the project will reduce the type of nonpoint pollutants for which the water is listed.
- B. Outstanding and Exceptional Resource Waters**  
Waterbody is included in s. NR 102.10 (Outstanding Resource Waters) and/or s. NR 102.11 (Exceptional Resource Waters).
- C. NPS Rankings**  
Project is located in a large-scale watershed, a small-scale watershed, lake watershed, or other area ranked high or medium on the NPS Rankings List, where the goals of the project are directly associated with the reason for the ranking on the NPS Rankings List.
- D. Amendment of the NPS Rankings List Using State of the Basin Reports**  
Project is located within a watershed ranked low or not ranked on the NPS Rankings List, but information in a DNR State of the Basin report indicates a need to amend the NPS Rankings List because the stream or stream segment or lake is being affected by nonpoint sources of pollution.
- E. Amendment of the NPS Rankings List Using Other Data Sources**  
Project is located within a watershed ranked low or not ranked on the NPS Rankings List, but adequate data exists to request a ranking of high or medium for a waterbody that is being affected by nonpoint sources of pollution.
- F. Sources of Information for Areas Not Included in State of the Basin Reports**  
For some border waters, there is no State of the Basin report (i.e., along the Mississippi River or the Great Lakes). For these situations, another governmental document, accepted by the Regional NPS Coordinator, can be used to classify the resource as having a significant nonpoint source pollution impairment.
- G. Not Included in Other Categories Above**  
50% or more of the planning area is not included in the categories above (A-F).

**Part III. Competitive Elements**

**Question 5. Water Quality Needs**

For each watershed in the project area, identify the category that best identifies the project goals. If more than one category is checked (because the project area contains more than one watershed), estimate the portion of the project area to be assigned to each category.

Note: For border waters where a State of the Basin Report does not exist, another governmental document acceptable to the Regional Nonpoint Source Coordinator may be used to identify the water quality need.

- | Percent of Project Area             | Surface Water Considerations   |
|-------------------------------------|--|
| <input type="checkbox"/>            | <b>A. 303(d) Listed Waterbody</b><br>Project with water quality goals directly dealing with a water body (lake or stream) on the latest Clean Water Act (CWA) s. 303(d) List of Impaired Waters, where the cause of the impairment in nonpoint source pollution and the project will reduce the type of nonpoint pollutants for which the water is listed. |
| <input type="checkbox"/>            | <b>B. Not Fully Meeting Uses</b><br>A waterbody (lake or stream) identified in a DNR State of the Basin report as not meeting or partially meeting designated uses due to nonpoint sources, but is not on the 303(d) List.   |
| <input type="checkbox"/>            | <b>C. Threatened Waterbody</b><br>A waterbody (lake or stream) viewed as "threatened" by nonpoint sources in a DNR State of the Basin report.  |
| <input type="checkbox"/>            | <b>D. Outstanding or Exceptional Resource Waters</b><br>Prevention of degradation due to nonpoint sources of outstanding or exceptional resource waters or high quality, recreationally significant waters, but not including waters listed as "threatened."   |
| <input checked="" type="checkbox"/> | <b>E. Surface Water Quality</b><br>Prevention of degradation of surface water quality due to nonpoint sources. Waters in this category are neither high quality, recreationally significant waters nor "threatened" waters.  |
| <b>Groundwater Considerations*</b>  |  |
| <input type="checkbox"/>            | <b>F. Exceeds Groundwater Enforcement Standard</b><br>Groundwater within the project area where representative information indicates that stormwater pollutants in groundwater exceed the Enforcement Standard (ES).   |
| <input type="checkbox"/>            | <b>G. Groundwater Quality (see Attachment G)</b><br>The project area is within a geological area defined in Attachment G as susceptible to groundwater contamination.  |
| <input type="checkbox"/>            | <b>H. Exceeds Groundwater Preventive Action Limit</b><br>Groundwater within the project area where representative information indicates that stormwater pollutants in groundwater exceed the Preventative Action Limit (PAL).  |

\*Consult the Regional Drinking Water and Groundwater Specialist or the County Extension office.

**Bonus Points (see Attachment F):**

- | Yes                                 | No                       |   |
|-------------------------------------|--------------------------|---|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Water quality goals relate to the control of nonpoint source contaminants in public drinking water supplies.        |
|                                     | 1.                       | If yes, and the source of drinking water affected by the project area is <u>groundwater</u> , the project protects: |
| <input type="checkbox"/>            | a.                       | One wellhead  |
|                                     |                          | OR  |
| <input type="checkbox"/>            | b.                       | More than one wellhead  |

2. If yes, and the source of drinking water affected by the project area is surface water, check the source water assessment area in which the project is located. If more than one assessment area is checked (because the project area contains more than one watershed), estimate the portion of the project area to be assigned to each category.

<u>Source Water Drainage Area</u>	<u>Portion of Project in Assessment Area (%)</u>
<input type="checkbox"/> Pike River & Creek	
<input type="checkbox"/> Root River	
<input type="checkbox"/> Oak Creek	
<input type="checkbox"/> Milwaukee River	
<input type="checkbox"/> Sauk Creek	
<input type="checkbox"/> Sheboygan & Onion Rivers	
<input type="checkbox"/> Manitowoc River	
<input type="checkbox"/> Twin Rivers	
<input type="checkbox"/> Kewaunee & Ahnapee Rivers	
<input checked="" type="checkbox"/> Menominee River	<b>100%</b>
<input type="checkbox"/> Fish Creek	
<input type="checkbox"/> St. Louis & Nemadji Rivers	
<input type="checkbox"/> Lake Winnebago	

**Question 6. Extent of Pollutant Control**

A project can consist of one or more of the following parts (A-F). For each part below, check the boxes that describe work products that will be produced under this grant. Do not check boxes based on prior work.

**A. Ordinances**

The project will develop or complete one or more of the following ordinances, including associated information, education and public participation activities. (check all that apply)

- 1. Construction erosion control ordinance including all the requirements of s. NR 151.11.
- 2. Storm water ordinance for new development and re-development including all the requirements of s. NR 151.12.
- 3. Low impact development/conservation subdivision ordinances.
- 4. Other ordinances such as an illicit discharge ordinance, storm water ordinances affecting runoff from developed urban areas (e.g., pet waste management ordinances, nutrient management ordinances), or ordinances that regulate the application of fertilizers to non-municipal properties in accordance with NR 151.14

**B. Financing Mechanisms**

The project will evaluate financing mechanisms for storm water management, including associated information, education and public participation activities. Recommendations will be presented to the governing board for approval and DNR will be notified of the governing board's action. (check one of the following)

- 1. The project develops a dedicated revenue source, such as a storm water utility, to implement a storm water program focusing on implementation of performance standards in Subchapter III of ch. NR 151.

OR

- 2. The project is a general feasibility analysis of alternative funding mechanisms.

**C. Storm Water Plan for Developed Urban Areas**

The project will develop a storm water management plan for developed urban areas that addresses all of the performance standards under s. NR 151.13 including associated information, education and public participation activities. (check one of the following)

- 1. This project will cover the entire geographic area of the governmental unit.

OR

- 2. This project will cover only part of the geographic area of the governmental unit.

**D. Storm Water Plan for New or Redevelopment**

The project will develop a storm water management plan for new development and re-development that addresses all of the performance standards under s. NR 151.12 including associated information, education and public participation activities. (check one of the following)

- 1. This project will cover the entire geographic area of the governmental unit.

OR

- 2. This project will cover only part of the geographic area of the governmental unit.

UNPS&SW Grant Project Name  
**Village Of Elm Grove Storm Water Management Plan**

**Project Information (continued)**

- E. Information & Education Program**  
The project will develop and/or implement an information and education program. (This does not include the information and education activities required as part of project under A. through D., above.)
- F. Inter-Municipal Cooperation (bonus)**  
This project is being conducted as part of an inter-governmental storm water management strategy for a common water resource. Describe the inter-governmental effort that will be used to complete the project. If more than one local unit of government is joining in this project application, (a "joint application"), then an inter-governmental agreement meeting the requirements of **Attachment H**. must be submitted with this application.

**Question 7. Consistency with Resource Management Plans**

Yes No

**A. Consistency with Resource Management Plans**

- The project implements a water quality recommendation specifically included in a locally approved resource management plan.

**B. Summarize the water quality recommendation from the local plan. Cite the name and date(s) of publication of the document.**

1. A construction site erosion control ordinance consistent with the performance standards of s. NR 151.11.

**See attached - page 14 for part A above and page 15 for part B1.**

2. A storm water management ordinance consistent with the performance standards of s. NR 151.12.

**See attached - page 15 for part B2**

**Question 8. Use of Additional Funding**

Yes No

- Funding requested is below the 70% cost-share rate and below the \$85,000 cap.

**Question 9. City of Racine**

Yes No

- This is an application from the City of Racine for a project that is necessary for the city to comply with state storm water permitting requirements.

**Part IV. Eligibility for Multipliers**

Completion of this part of the application is optional. However, an applicant can increase the final project score by qualifying for a project multiplier.

**Local Implementation Program (select all that are in place as of the application submittal date)**

Yes No NA

- A. The governmental unit is implementing a pollution prevention information and education program targeted for property owners and other residents.
- B. The governmental unit is implementing a nutrient management plan for municipally owned properties of at least five (5) acres of pervious area where nutrients are applied.
- C. The governmental unit is tracking storm water permitting activity (construction and post-construction) in the governmental unit and can make summary information available to the DNR upon request.

**Optional Additional Information**

Carefully review the answers to all of the questions above. Is there additional information that will add to the understanding of this project? If so, describe here.

**See attached - pages 16- 18**

**Applicant Certification**

An Authorized Representative must sign and date the application form prior to submittal to the DNR. All **four (4)** copies must include the signature of the Authorized Representative.

I certify that, to the best of my knowledge, the information contained in this application and attachments is correct and true.

Signature of Authorized Representative

Date Signed

**David De Angelis Village Manager**

Fax Number **262-782-8714**

E-Mail Address **ddeangelis@elmgrovewi.org**

Mailing Address **13600 Juneau Boulevard Elm Grove WI 53122**

To be considered for funding, provide the following for each application submitted:

- One copy of the completed application form (DNR Form 8700-300 (R 1/07) with original signature in blue ink;
- Three additional signed copies of the completed application form;
- One electronic copy of the completed application form on CD or diskette.

All application materials must be postmarked by midnight April 16, 2007.
