Coldwater	0	Small	100	Intolerant	0
Transitional	100	Medium	0	Intermediate	0
Warmwater	0	Large	0	Tolerant	100

### Warm Transition Headwater Guild Test

**Comments from WR Biologist:**

Verified as correct. Note the extreme population densities and only two fish species present. This site is within a significant cattail marsh, which I believe contributes to DO swings favoring these species.
