That looks like a zebra mussel.

Subject: 2nd Verification Needed - FW: Swan Lake - Zebra Mussel?

Hey Amy and Maureen,

Would one of you like to give a second verification for this new ZM report?

This will be only the second ZM population verified Columbia County (other is Lake Wisconsin/Wisconsin River). Seeing this as a good opportunity to work with Golden Sands on outreach and education to local lake groups. Could also inform work planning for 2022, I'm curious to check on nearby lakes and boater movement data related Swan Lake.

Thanks,

Shelby

Hi Shelby,

See below, looks like zebra mussels are in Swan Lake in Columbia County. Not sure if they have been confirmed there yet or not...looks like not. This is on the upper Fox River.

Thanks,

Nate

Taken off my boat, which sits in Swan Lake most of the year.

I could retake the photo if it needs more light?
