Subject: 2030 Fox West Sewer Service Area Amendment

Track No. 170

Dear Ms. Helmuth:

Please find enclosed a copy of a sewer service area amendment request for the 2030 Fox Cities SSA Plan which would add two acres of land to accommodate 1,320 linear feet of 8" PVC sewer as part of a road construction project. This amendment was submitted under Policy I, F (mapping error) by the Village of Greenville. The mapping error policy allows for sewer service area amendments to be created for easements dedicated for transporting sewers that will not serve any new development.

This transporting sewer line connects two existing areas within the Fox West (formerly Grand Chute-Menasha West) SSA, and does not include any environmentally sensitive areas (ESAs). East Central respectfully requests an expedited review of this amendment from the Wisconsin Department of Natural Resources (WDNR). According to the adopted Fox Cities SSA Amendment process, sewer service area amendment requests for easements can be submitted directly to the WDNR for review and certification without the need for East Central's Community Facilities Committee review.

Attached is the amendment request from the Village of Greenville and the amendment request location map (Map 1 and Map 2). This information will also be uploaded to SWIMS.

If you require any additional information or have any questions, please contact me at wpaustian@ecwrpc.org or at 920-886-6832.

Sincerely,

Wilhelmina Paustian
