Horsehead Lake P & R District

**Horsehead Lake Management Planning Project
Planning Meeting I
June 20, 2018**

Tim Hoyman
Onterra LLC
Lake Management Planning

Presentation Outline

- Meeting Objective
- Study Results
 - Water Quality
 - Paleoecology
 - Watershed
 - Shoreland
 - Aquatic Plants
 - Fishery
- "Big Picture"
- Implementation Plan Development

Stakeholder Survey

Onterra LLC

Meeting Objective

Planning Committee Meetings

Study Results
Conclusions & Initial Recommendations

Management Goals
Management Actions
Timeframe
Facilitator(s)

Implementation Plan

Onterra LLC
Lake Management Planning

Summary of Project Results

Aquatic Plants

- Aquatic plant community is of moderate quality and very high biomass
- Not much difference found between 2007 and 2017 plant surveys

Water Quality

- Water is good overall
- Aquatic plant community has positive and negative impacts on water quality

Watershed and Immediate Shorelands

- Watershed is in excellent shape currently
- Past actions in watershed may be impacting Horsehead ecology currently
- State-owned land assures natural shorelands and coarse woody habitat

Fisheries

- Not much data available
- Fish kills occurring as recently as 2006, 2008, and 2016 determine fishery structure

Onterra LLC
Lake Management Planning

Wisconsin Ecoregions

Onterra LLC
Lake Management Planning

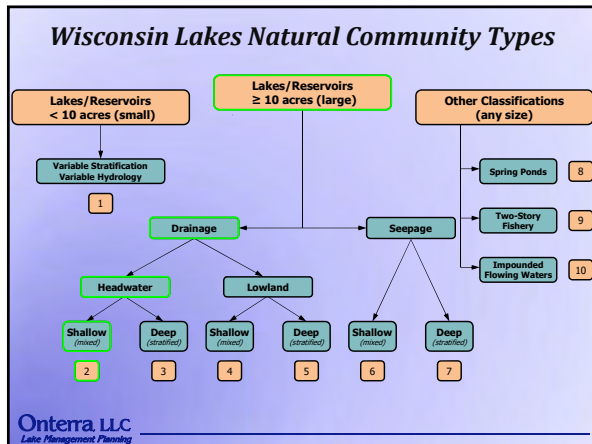

Wisconsin Lakes Classification

Deep, Stratified Lake

Shallow, Mixed Lake

Epilimnion
Metalimnion
Hypolimnion

Onterra LLC
Lake Management Planning

Introduction to Lake Water Quality

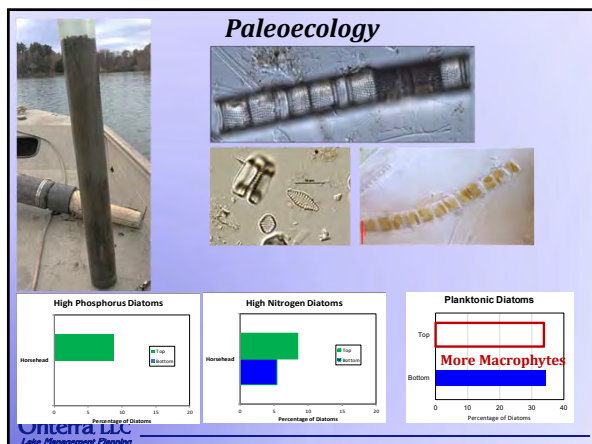

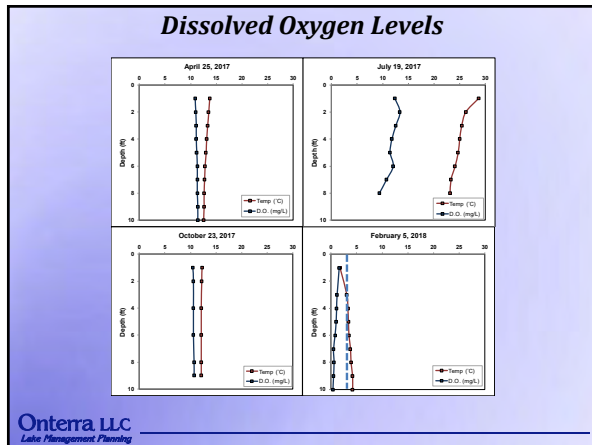

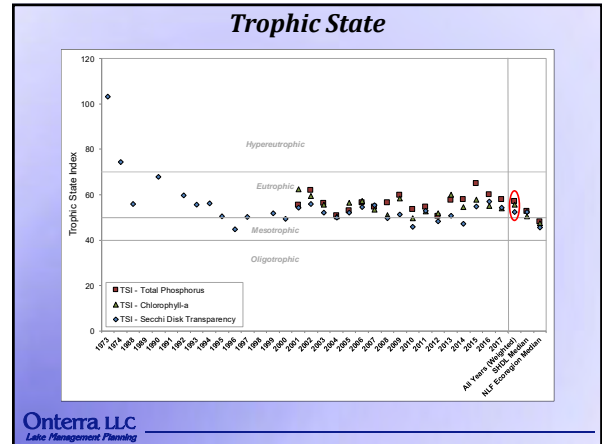

↑ Phosphorus
Naturally occurring & essential for all life
Regulates phytoplankton biomass in **most** WI lakes
Most often 'limiting plant nutrient' (shortest supply) 23:1
Human activity often increases P delivery to lakes

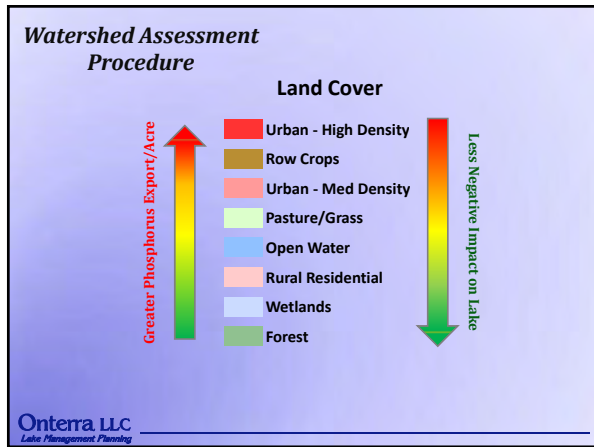

↑ Chlorophyll-a
Pigment used in photosynthesis
Used as surrogate for phytoplankton biomass

↓ Secchi Disk Transparency
Measure of water clarity
Measured using a Secchi disk

Onterra LLC
Lake Management Planning

Shoreland Assessment

- Shoreland area is important for buffering runoff and provides valuable habitat for aquatic and terrestrial wildlife.
- EPA National Lakes Assessment results indicate shoreland development has greatest negative impact to health of our nation's lakes.
- It does not look at lake shoreline on a property-by-property basis.
- Assessment ranks shoreland area from shoreline back 35 feet

Urbanized → **Natural**

Onterra LLC
Lake Management Planning

Shoreline Assessment Category Descriptions

More Natural Habitat →

Category	Visual Description
Urbanized	Large house, paved driveway, lawn
Developed-Unnatural	House, lawn, some trees
Developed-Semi-Natural	House, lawn, more trees
Developed-Natural	House, lawn, many trees
Natural/Undeveloped	Many trees, no house

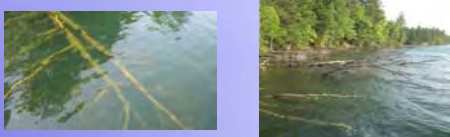

← Greater Need for Restoration

Onterra LLC
Lake Management Planning

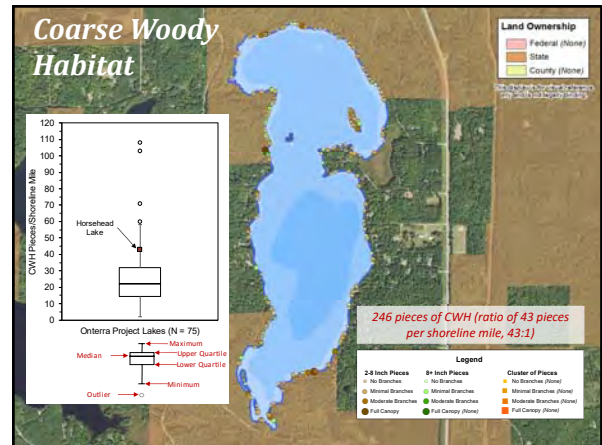

Coarse Woody Habitat

- Provides shoreland erosion control and prevents suspension of sediments.
- Preferred habitat for a variety of aquatic life.
 - Periphyton growth fed upon by insects.
 - Refuge, foraging and spawning habitat for fish.
 - Complexity of CWH important.
- Changing of logging and shoreland development practices = reduced CWH in Wisconsin lakes.
- Survey aimed at quantifying CWH in system.

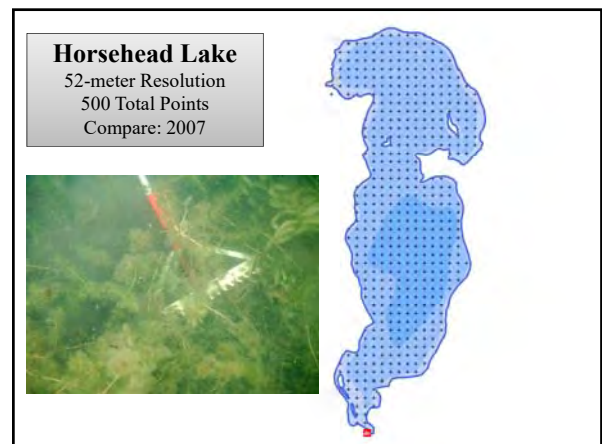

Onterra LLC
Lake Management Planning

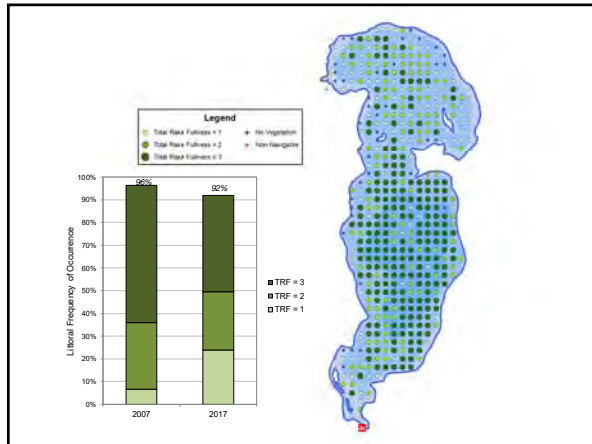

Aquatic Plant Surveys

- Determine changes in plant community from past surveys completed in 2007
- Assess both native and non-native populations
- Numerous surveys completed in 2017
 - Early-Season AIS Survey
 - Whole-Lake Point-Intercept Survey
 - Emergent/Floating-Leaf Community Mapping Survey
 - EWM Peak-Biomass Survey

Onterra LLC
Lake Management Planning

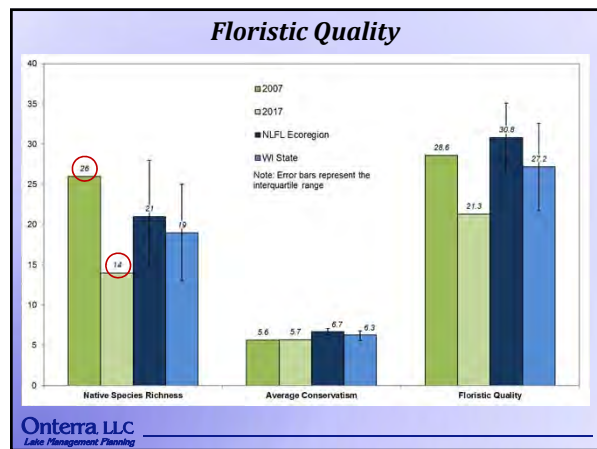

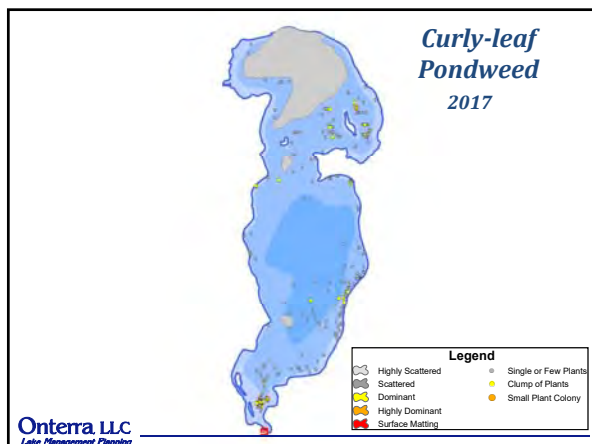

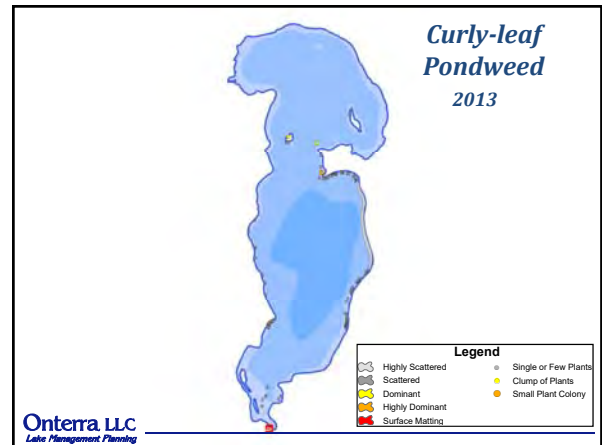

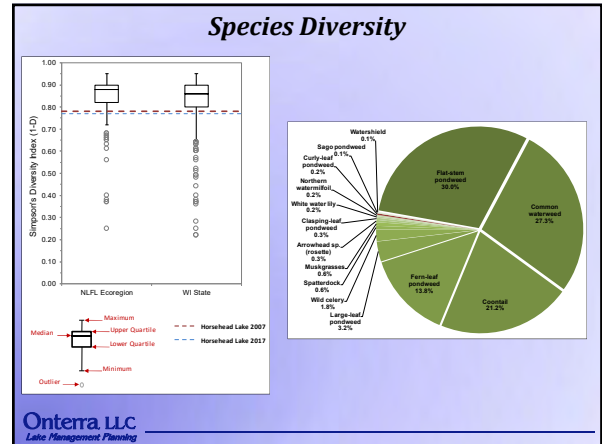

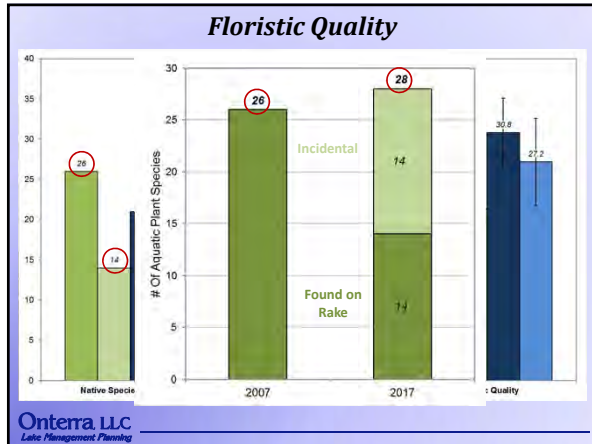

Aquatic Plant Species List

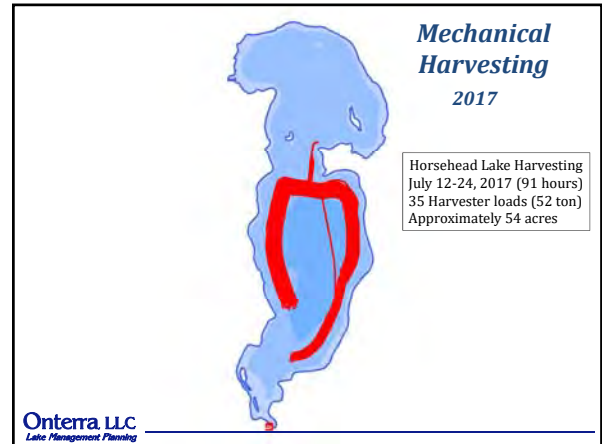

28 Native Species
3 Non-Native Species

Pale yellow iris
Eurasian watermilfoil
Curly-leaf pondweed

Growth Form	Scientific Name	Common Name	Coefficient of Conservation (C)	1976	1992	2007	2017
Emergent	<i>Alisma terrestris</i>	Northern waterplantain	4			X	
	<i>Calla palustris</i>	Water arum	5			X	
	<i>Cyperus cornutus</i>	Scudly sedge	5			X

	<i>Alisma terrestris</i>	Waterplantain	7			X	X

Conclusions

Water Quality

- Overall, water quality of Horsehead Lake is good and has not changed since beginning of record
- Horsehead Lake is highly productive with that productivity showing in its high level of vascular plant biomass
- Aquatic plant biomass is partially responsible for high phosphorus concentrations, but also responsible for low algal biomass and high water clarity

Watershed & Immediate Shoreline

- Watershed and shoreland are in great condition, but there is always room for improvement on privately-owned, developed properties

Aquatic Plant Community

- Plant community is as expected for shallow, eutrophic lake
- Plant biomass causes navigation issues starting in mid-summer, so continued use of mechanical harvesting is warranted

Onterra LLC
Lake Management Planning

Planning Meeting II

Primary Objective: Create implementation plan framework

Steps to Achieve Objective:

1. Discuss challenges facing lake and lake group
2. Convert challenges to management goals
3. Create management actions to meet management goals
4. Determine timeframes and facilitators to carry out actions

Assignment for Planning Meeting II

1. Create list of challenges facing lake and lake group
2. Review stakeholder survey results
3. Send potential report section edits and questions to Tim

Onterra LLC
Lake Management Planning

APPENDIX B

Stakeholder Survey Response Charts and Comments

Horsehead Lake - Anonymous Stakeholder Survey

Surveys Distributed: 100
 Surveys Returned: 49
 Response Rate: 49%

Horsehead Lake Property

1. Is your property on the lake or off the lake? Please select one choice.

Answer Options	Response Percent	Response Count
On the lake	81.6%	40
Off the lake	18.4%	9
answered question		49
skipped question		0

2. How is your property on Horsehead Lake utilized?

Answer Options	Response Percent	Response Count
A year-round residence	32.7%	16
Visited on weekends throughout the year	28.6%	14
Seasonal residence (summer only)	22.5%	11
Other	10.2%	5
Undeveloped	4.1%	2
Resort property	2.0%	1
Rental property	0.0%	0
answered question		49
skipped question		0

Number	Other (please specify)
1	visited on weekends and weekly periods spring through fall
2	about 3-4 days /week
3	vacation rental cabins/permanent RV seasonal 12 month sites
4	Weekends throughout the year and summer residence
5	Own two homes, back and forth during the year

3. How many days each year is your property used by you or others?

Answer Options	Response Count
	48
answered question	48
skipped question	1

Category (# of days)	Responses	Count	Percentage
0 to 100		23	48%
101 to 200		8	17%
201 to 300		1	2%
301 to 365		16	33%

4. How long have you owned your property on Horsehead Lake?

Answer Options	Response Count
	48
answered question	48
skipped question	1

Category (# of years)	Responses	Count	Percentage
0 to 5		8	17%
6 to 10		9	19%
11 to 15		9	19%
16 to 20		5	10%
21 to 25		5	10%
>25		12	25%

5. What type of septic system does your property utilize?

Answer Options	Response Percent	Response Count
Conventional system	57.1%	28
Holding tank	16.3%	8
Mound	16.3%	8
Advanced treatment system	4.1%	2
No septic system	4.1%	2
Do not know	2.0%	1
Municipal sewer	0.0%	0
answered question		49
skipped question		0

6. How often is the septic system on your property pumped?

Answer Options	Response Percent	Response Count
Multiple times a year	2.1%	1
Once a year	4.3%	2
Every 2-4 years	85.1%	40
Every 5-10 years	4.3%	2
Do not know	4.3%	2
answered question		47
skipped question		2

Recreational Activity on Horsehead Lake

7. How many years ago did you first visit Horsehead Lake?

Answer Options	Response Count
answered question	
skipped question	

Category (# of days)	Responses	% Response
0 to 10	14	29%
11 to 20	13	27%
21 to 30	7	14%
31 to 40	7	14%
41 to 50	5	10%
51 to 60	3	6%
>60	0	0%

8. Have you personally fished on Horsehead Lake in the past three years?

Answer Options	Response Percent	Response Count
Yes	71.4%	35
No	28.6%	14
answered question		49
skipped question		0

9. For how many years have you fished Horsehead Lake?

Answer Options	Response Count
answered question	
skipped question	

Category (# of days)	Responses	% Response
0 to 10	11	22%
11 to 20	7	14%
21 to 30	5	10%
31 to 40	6	12%
41 to 50	4	8%
51 to 60	1	2%
>60	0	0%

10. What species of fish do you like to catch on Horsehead Lake?

Answer Options	Response Percent	Response Count
All fish species	57.1%	20
Bluegill/Sunfish	48.6%	17
Northern pike	48.6%	17
Crappie	37.1%	13
Yellow perch	31.4%	11
Largemouth bass	22.9%	8
Other (please specify)	2.9%	1
answered question		35
skipped question		14

Number	Other (please specify)
1	mostly bass

11. How would you describe the current quality of fishing on Horsehead Lake?

Answer Options	Very Poor	Poor	Fair	Good	Excellent	Unsure	Response Count
	7	10	13	4	0	0	34
answered question							34
skipped question							15

12. How has the quality of fishing changed on Horsehead Lake since you have started fishing the lake?

Answer Options	Much worse	Somewhat worse	Remained the same	Somewhat better	Much better	Unsure	Response Count
	14	13	5	1	0	2	35
answered question							35
skipped question							14

13. Since the winter of 2013-2014, how has the quality of fishing changed on the lake?

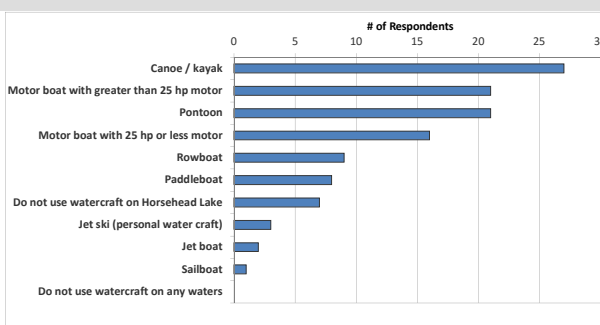

Answer Options	Response Percent	Response Count
Fewer panfish	65.7%	23
Fewer game fish	48.6%	17
More rough fish	0.0%	0
No change	0.0%	0
I only recently started fishing Horsehead Lake	11.4%	4
Other	17.1%	6
answered question		35
skipped question		14

Number	Other (please specify)
1	Northerns small in size
2	nice size perch, Northerns are small, Blue Gills and Crappies non existant
3	I didn't fish enough
4	all fish are small in size
5	the fishing was great 2017 thru Jan 2018/ it is my belief we have had another "significant fish kill"
6	NO GAME FISH.

14. What types of watercraft do you currently use on Horsehead Lake?

Answer Options	Response Percent	Response Count
Canoe / kayak	55.1%	27
Motor boat with greater than 25 hp motor	42.9%	21
Pontoon	42.9%	21
Motor boat with 25 hp or less motor	32.7%	16
Rowboat	18.4%	9
Paddleboat	16.3%	8
Do not use watercraft on Horsehead Lake	14.3%	7
Jet ski (personal water craft)	6.1%	3
Jet boat	4.1%	2
Sailboat	2.0%	1
Do not use watercraft on any waters	0.0%	0
answered question		49
skipped question		0

15. Do you use your watercraft on waters other than Horsehead Lake?

Answer Options	Response Percent	Response Count
Yes	79.2%	38
No	20.8%	10
answered question		48
skipped question		1

16. What is your typical cleaning routine after using your watercraft on waters other than Horsehead Lake?

Answer Options	Response Percent	Response Count
Remove aquatic hitch-hikers (ex. - plant material, clams, mussels)	84.9%	28
Drain bilge	63.6%	21
Rinse boat	42.4%	14
Power wash boat	9.1%	3
Apply bleach	9.1%	3
Do not clean boat	3.0%	1
Other	0.0%	10
answered question		33
skipped question		16

Number	Other (please specify)
1	na
2	Keep out of water for extended period
3	Wipe boat down
4	Cleanser and brushes/bucket
5	Bleach and detergent
6	Don't use on other lakes
7	Have only used boats off Horsehead Lake rarely and not for several years.
8	Do not move boat from lake to lake
9	Do not use watercraft on other lakes besides horsehead
10	Clean and dry live well.

17. For the list below, rank up to three activities that are important reasons for owning your property on Horsehead Lake, with 1 being the most important.

Answer Options	1st	2nd	3rd	Rating Average	Response Count
Relaxing / entertaining	24	6	6	1.5	36
Fishing - open water	10	10	10	2	30
Nature viewing	4	12	6	2.09	22
Motor boating	3	6	4	2.08	13
Swimming	2	2	2	2	6
Snowmobiling / ATV	2	0	2	2	4
Canoeing / kayaking	0	4	4	2.5	8
Hunting	0	3	1	2.25	4
Water skiing / tubing	0	2	7	2.78	9
Ice fishing	0	1	1	2.5	2
None of these activities are important to me	0	0	1	3	1
Jet skiing	0	0	0	0	0
Sailing	0	0	0	0	0
Other	3	0	0	1	3
answered question					48
skipped question					1

- Number "Other" responses**
- 1 I live here. Have nothing to do with why I live here.
 - 2 weeds not cut early enough for people trying to enjoy their property on the lake.
 - 3 None. I've given up on Horsehead. no fish. too weedy.
 - 4 It's mid-way between Rhinelander & Minocqua
 - 5 We enjoy all on lake activities

Horsehead Lake Current and Historic Condition, Health and Management

18. How would you describe the overall current water quality of Horsehead Lake?

Answer Options	Very Poor	Poor	Fair	Good	Excellent	Unsure	Response Count
	2	8	16	20	0	3	49
answered question							49
skipped question							0

19. How has the overall water quality changed in Horsehead Lake since you first visited the lake?

Answer Options	Severely degraded	Somewhat degraded	Remained the same	Somewhat improved	Greatly improved	Unsure	Response Count
	3	10	20	7	3	6	49
answered question							49
skipped question							0

20. Before reading the statement above, had you ever heard of aquatic invasive species?

Answer Options	Response Percent	Response Count
Yes	100.0%	48
No	0.0%	0
answered question		48
skipped question		1

21. Do you believe aquatic invasive species are present within Horsehead Lake?

Answer Options	Response Percent	Response Count
Yes	41.7%	20
I think so but am not certain	43.8%	21
No	14.6%	7
answered question		48
skipped question		1

22. Which aquatic invasive species do you believe are in Horsehead Lake?

Answer Options	Response Percent	Response Count
Eurasian watermilfoil	56.1%	23
Curly-leaf pondweed	39.0%	16
Unsure but presume AIS to be present	36.6%	15
Pale yellow iris	12.2%	5
Zebra mussel	9.8%	4
Purple loosestrife	7.3%	3
Chinese mystery snail	7.3%	3
Rusty crayfish	4.9%	2
Freshwater jellyfish	2.4%	1
Heterosporis (Yellow perch parasite)	2.4%	1
Carp	2.4%	1
Flowering rush	0.0%	0
Starry stonewort	0.0%	0
Spiny waterflea	0.0%	0
Round goby	0.0%	0
Rainbow smelt	0.0%	0
Other	14.6%	6
answered question		41
skipped question		8

Number "Other" responses

- 1 Not sure
- 2 blue green algae is very bad
- 3 unsure
- 4 abundant lake grass summer of 2017
- 5 the lake is so weedy that I'm not sure what AIS are present. I know that we have divers clear out boat launch and there are a few plants removed. excellent program
- 6 They have been well controlled but still might present to a small extent

23. To what level do you believe each of the following factors may currently be negatively impacting Horsehead Lake?

*** Not Present** means that you believe the issue does not exist on Horsehead Lake.

**** No Impact** means that the issue may exist on Horsehead Lake but it is not negatively impacting the lake.

Answer Options	*Not Present	**No negative impact	Small negative impact	Moderately negative impact	Large negative impact	Very large negative impact	Unsure: Need more information	Rating Average	Response Count
Excessive aquatic plant growth (excluding algae)	1	1	3	9	10	16	5	2.56	45
Algae blooms	0	6	7	6	12	5	9	1.67	45
Water quality degradation	5	6	9	9	1	5	9	1.14	44
Aquatic invasive species introduction	1	6	9	8	7	4	9	1.41	44
Shoreline erosion	3	17	10	3	1	3	7	0.70	44
Loss of aquatic habitat	2	10	8	8	1	2	10	0.85	41
Septic system discharge	6	6	9	0	3	1	20	0.49	45
Excessive fishing pressure	13	9	8	7	2	1	4	0.73	44
Excessive watercraft traffic	12	10	9	7	1	1	4	0.68	44
Unsafe watercraft practices	13	8	9	5	1	1	6	0.60	43
Noise/light pollution	10	15	7	2	2	0	7	0.40	43
Shoreline development	6	17	12	3	0	0	5	0.42	43
Other (please specify)									5
answered question									46
skipped question									3

Number	Other (please specify)
	small minded people who want to control everything private land owners do and who think another study and/or rule program will solve issues.
2	very weedy / overgrowth of weeds
3	Thick Weed growth a round 4th of July following mild winters
4	Weeds/weed mowing
5	I don't live on the lake and don't use it

24. From the list below, please rank your top three concerns regarding Horsehead Lake, with 1 being your greatest concern.

Answer Options	1st	2nd	3rd	Response Count
Excessive aquatic plant growth (excluding algae)	17	10	6	33
Water quality degradation	12	7	10	29
Aquatic invasive species introduction	5	14	5	24
Algae blooms	4	3	11	18
Loss of aquatic habitat	3	4	1	8
Excessive fishing pressure	1	2	1	4
Shoreline erosion	1	1	4	6
Unsafe watercraft practices	1	1	1	3
Excessive watercraft traffic	0	2	2	4
Noise/light pollution	0	1	0	1
Shoreline development	0	0	2	2
Septic system discharge	0	0	2	2
Other (please specify)	3	0	0	3
answered question				47
skipped question				2

- Number "Other" responses**
- 1 weed cutting a waste of money
 - 2 Decline in fish population
 - 3 Weeds, weed mowing, weed debris
 - 4 Major concern is growth of weeds and lack of control and fish population
 - 5 Don't use lake - would like out of lake district

25. During open water season how often does aquatic plant growth, including algae, negatively impact your enjoyment of Horsehead Lake?

Answer Options	Never	Rarely	Sometimes	Often	Always	Response Count
	3	1	18	21	5	48
answered question						48
skipped question						1

26. During the past three years of open water season, has aquatic plant growth, including algae, ever displaced you from Horsehead Lake?

Answer Options	Response Percent	Response Count
Yes	60.9%	28
No	39.1%	18
answered question		46
skipped question		3

27. In which months have you been displaced from Horsehead Lake due to aquatic plant growth?

Answer Options	Response Percent	Response Count
March	0.0%	0
April	0.0%	0
May	3.7%	1
June	33.3%	9
July	100.0%	27
August	81.5%	22
September	18.5%	5
October	3.7%	1
November	0.0%	0
answered question		27
skipped question		22

28. Considering your answer to the question above, do you believe aquatic plant control is needed on Horsehead Lake?

Answer Options	Definitely yes	Probably yes	Unsure	Probably no	Definitely no	Response Count
	31	11	4	0	1	47
answered question						47
skipped question						2

29. Aquatic plants can be managed using many techniques. What is your level of support for the responsible use of the following techniques on Horsehead Lake?

Answer Options	Strongly oppose	Moderately oppose	Neutral	Moderately support	Strongly support	Unsure: Need more info	Rating Average	Response Count
Mechanical harvesting	3	0	3	11	27	2	4.15	46
Manual removal by property owners	6	3	5	10	18	4	3.41	46
Hand-removal by divers	3	0	9	12	16	6	3.43	46
Dredging of bottom sediments	7	3	7	6	13	10	2.67	46
Biological control (milfoil weevil, loosestrife beetle, etc)	6	1	5	8	8	18	2.07	46
Herbicide (chemical) control	17	3	2	9	5	11	1.91	47
Do nothing (do not manage plants)	26	4	2	1	0	4	1.19	37
answered question								47
skipped question								2

30. How do you feel about the past use of mechanical harvesting to control nuisance aquatic plants in previous years?

Answer Options	Completely support	Moderately support	Unsure	Moderately oppose	Completely oppose	Unaware of past harvesting	Rating Average	Response Count
	26	13	4	1	2	2	1.63	48
answered question								48
skipped question								1

31. What is your level of support or opposition for future use of mechanical harvesting to control nuisance aquatic plants in Horsehead Lake?

Answer Options	Completely support	Moderately support	Unsure	Moderately oppose	Completely oppose	Rating Average	Response Count
	28	14	3	1	2	1.65	48
	<i>answered question</i>						48
	<i>skipped question</i>						1

32. What is the reason(s) you oppose future mechanical harvesting to target nuisance aquatic plants in Horsehead Lake?

Answer Options	Response Percent	Response Count
Ineffectiveness of harvesting	100.0%	3
Potential cost of harvesting is too high	66.7%	2
Aesthetics after harvesting (leftover fragments of cut plants)	66.7%	2
Potential impacts to native (non-plant) species such as fish, insects, etc.	33.3%	1
Potential impacts to native aquatic plant species	0.0%	0
Future effects may be unknown at this time	0.0%	0
Another reason	100.0%	3
	<i>answered question</i>	
	3	
	<i>skipped question</i>	
	46	

Number "Other" responses

- 1 The lake has always been full of weeds and always will be. Has never hurt the fishing. The lake has always come back after freeze out and before creation of weed cutting.
- 2 increased cost on our taxes with seeing no change on the lake
- 3 Weed debris negatively affects shoreline and use of the lake. Any harvesting should include plans to remove weed debris as well.

33. How would you change, if at all, the mechanical harvesting plan?

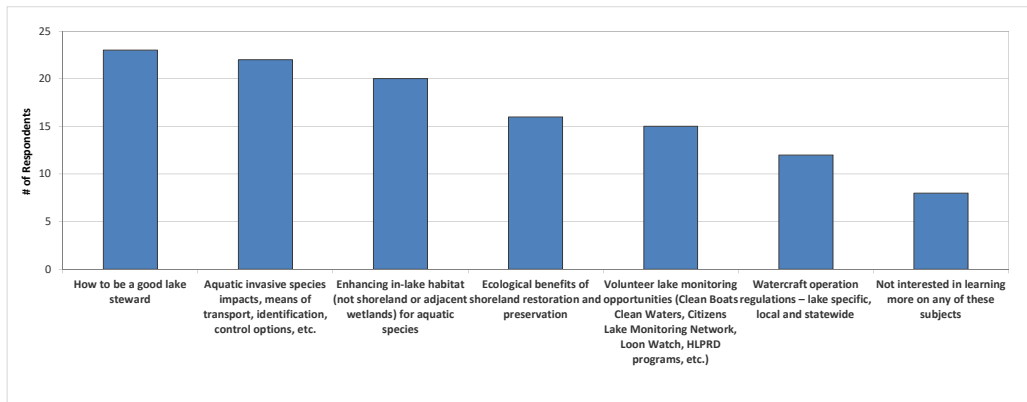

Answer Options	Response Percent	Response Count			Response Percent	Response Count			Response Percent	Response Count
I do not support mechanical harvesting	100.0%	2								
Time of Harvesting Answer Options	Response Percent	Response Count	Frequency of Harvesting Answer Options	Response Percent	Response Count	Harvesting Areas Answer Options	Response Percent	Response Count		
Keep as is (approximately 3rd week of July)	64.1%	25	Keep as is (cut once)	51.4%	19	Harvest more areas of the lake	72.5%	29		
Cut earlier	28.2%	11	Cut twice	46.0%	17	Keep as is (approx. 51 acres)	25.0%	10		
Cut later	7.7%	3	Cut more than twice	2.7%	1	Harvest less areas of the lake	2.5%	1

34. Stakeholder education is an important component of every lake management planning effort. Which of these subjects would you like to learn more about?

Answer Options	Response Percent	Response Count
How to be a good lake steward	51.1%	23
Aquatic invasive species impacts, means of transport, identification, control options, etc.	48.9%	22
Enhancing in-lake habitat (not shoreland or adjacent wetlands) for aquatic species	44.4%	20
Ecological benefits of shoreland restoration and preservation	35.6%	16
Volunteer lake monitoring opportunities (Clean Boats Clean Waters, Citizens Lake Monitoring Network, Loon Watch, HLPRD programs, etc.)	33.3%	15
Watercraft operation regulations – lake specific, local and statewide	26.7%	12
Not interested in learning more on any of these subjects	17.8%	8
Some other topic	6.7%	3
answered question		45
skipped question		4

Number	Other (please specify)
1	rye baits and other methods of control the DNR never talk about
2	I feel I'm fairly well up to speed on these subjects
3	I would like to know how to get out of the lake district

Horsehead Lake Protection & Rehabilitation District No. 1 (HLPRD)

35. How informed has the HLPRD kept you regarding issues with Horsehead Lake and its management?

Answer Options	Not at all informed	Not too informed	Unsure	Fairly well informed	Highly informed	Response Count
	1	4	3	24	14	46

36. The effective management of your lake will require the cooperative efforts of numerous volunteers. Please select the activities you would be willing to participate in if the HLPRD requires additional assistance.

Answer Options	Response Percent	Response Count
Water quality monitoring	37.0%	17
I do not wish to volunteer	34.8%	16
Watercraft inspections at boat landings	28.3%	13
Bulk mailing assembly	26.1%	12
Aquatic plant monitoring	23.9%	11
Attending Wisconsin Lakes Convention	17.4%	8
HLPRD Board	15.2%	7
Writing newsletter articles	10.9%	5

Number	Response Text
1	We've come a long way from mold growing on top of the lake in August to now. Keep up the good work and do more harvesting.
2	I have lived here 40+ years. The lake has always had weeds and algae. It's a good fertile fish producing lake. It has always been a freeze out lake and always came back on its own. Aeration may help a little in moderate winters but obviously didn't do much 2013-2014 or this year, 2017-2018. Stocking bass is not the answer. It's always been northern and bluegill. Some people seem to want it to be a bass lake. Let it be! People that live on the lake want to make it something it's not. It's a fishing lake, not jet ski, water ski or swimming. Aeration, weed cutting, stocking bass will never change the lake into something it's not.
3	Current and historic conditions are some what the same, our management are very good
4	Our hope is that it can be restored as a good pan fish fishery. Very Concerned about the current lack of fish, especially gills and crappies.
5	We are generally very happy with the district's management of the lake. We prioritize the health of the lake and it's species over watercraft recreation on the lake. In fact, we feel that the jet skis on the lake are typically very unsafe and do not follow safety regulations. They drive too close to shorelines and to other objects in the water. Plus, they create noise pollution. Maybe the resorts/landowners could use an article on these regulations in the next newsletter. Thanks!
6	I recently purchased this property but ownership info apparently has not changed for Removed New owner is Tom Removed REMOVED thanks
7	Do not want to see the lake used for reasons of personal profit... shut the campground down. Raise water level back-up and leave it there year-round. Restock the fish. I am not aware of failing septic systems on the lake and was surprised by the questions. If there are systems not currently monitored by the county, the county needs to step in and enforce compliance.
8	Dam should be replaced with a flow under dam instead of a flow over dam. Lake should have deep holes dredged and islands created with the dredged material.
9	Need to harvest weeds on the North end of the lake more than in the past years.
10	B+ The current board cares about the well being of Horsehead Lake. Are doing a great job. Could be a little more open minded when listening to concerns of stakeholders at meetings. Everyone should feel comfortable offering suggestions to improve the health and use of the Lake
11	I appreciate the volunteers who give their time to continue to mak HL a place Tao be proud of
12	I know it's a sore subject but the old way of lowering the lake that allowed res. to clear lakefront in front of property. That was the purpose of the type of dam that was installed. It also avoided lake shoreline erosion.
13	I am not a lakeshore owner but live in the district. If I am going to trailer my boat to a local lake it would not be Horsehead Lake due to the availability of other pristine lakes in the close vicinity.
14	I appreciate everything that the association and volunteers do for our lake. I strongly believe that the lake harvesting has been a huge benefit to the health of our lake and that the most optimum time to harvest is when the plants reach maturity. I truly believe that only the people that have homes/property and pay property taxes have a right to make decisions about our lake.
15	I would like to see less weeds on the lake in the summer months. I know part of the problem is the shallow depth of the lake. I'm not sure what reasonable actions are needed to make this happen. Maybe by cutting the weeds earlier it will make boating/fishing easier during the months we use the lake the most.
16	our commitment to better manage our mechanical harvesting of the aquatic plants in a timely manner falls short of providing property owners highest and best use of the lake they have invested in for their use. completing the cutting of the weeds before the fourth of july clears the lake for the remainder of the summer and provides quality recreational opportunities.
17	Weed control of entire lake -- either mechanical or biologic (if proven safe). Mid Lake has their own equipment & then even harvest the weeds that homeowners collect at the shoreline. For the money we are paying, the weed harvester should be willing to pick up the weeds we've collected.
18	Since Horsehead Lake is a shallow lake, it is what it is and property owners have been able to sustain it so it has not deteriorated to much. Every year is different. Some better than others. Overall it is a nice lake.
19	The current board is doing a great job.
20	The lake and its management have improved greatly since we began coming here. There are many more ways to be informed about what is happening - for example the web page. After the "bad" winter several years ago he fish are coming back due to smart stocking and the aquatic plants are also returning. Harvesting once per season in mid-July seems to be the best way to balance people's need to fish and boat. Pulling plants around your pier to keep your swimming area open works well too. It is a lake not a swimming pool.
21	We are fortunate to have such a wonderful lake and organization to maintain and enhance it!
22	I do not think we should spend funds on fish stocking as it doesn't appear to add any real benefit to living on the lake. In addition, too many non-residents benefit disproportionately by this (they don't pay for stocking yet they get to fish). My other comments has to do w/the excessive weed debris generated by the lake mowing. Candidly, our shore line and the way we use the lake ends whenever we mow the lake (usually mid July due to the excessive weed debris. We haven't had our boat in the lake in over 13 years, just not worth the limited use we get. We've been good supporters of the lake mowing, but really thing it'd be fair to include removal of the weed debris. Maybe we could construct a matrix based on lake use. Tax funds from those who fish and boat on the lake would pay the mowing and tax funds from those who don't would be directed to pay for the removal of the weeds.
23	We've considered moving to a more clearer lake due to last years poor weed control and lack of effective management.

24	The fishing was great 2017 thru Jan 2018/ it is my belief we have had another "significant fish kill". More aeration needs to be setup either in the current location or others on the north end of the lake/ to help with keeping oxygen levels up during heavy ice / snow years.
25	We life off-water and do not use the lake. I think it is unfair that we have to pay lake district assessment for something we don't use.
26	Last year after weed harvesting, left the lake a big mess. People could not believe how bad our lake looked.
27	We like this lake a lot. We would like to see more perch and crappies but no walleyes. We would also prefer to keep the boat traffic down.
