RE: SSA Amendment Request #2304 – Stoughton USA (City of Stoughton) Stone Crest Subdivision – Condition 1) of DNR Approval Letter DC-0225

Dear Mr. Asplund and Mr. Bower:

Stoughton Utilities, as a department of the City of Stoughton, oversees the operation and maintenance of the electric, wastewater, and water utilities. The purpose of this letter is to formally acknowledge our awareness of the potential need to modify and/or upsize the Stone Crest Lift Station to serve the proposed future development of the Stone Crest Subdivision, and we understand and accept that such modification and/or upsizing of the station may need to occur in the future.

The previously constructed Phase 2 of the original Stone Crest Subdivision required the installation of the Stone Crest Lift Station in 2004. At the time of construction, the station was designed with the size capacity required for that phase. However, the city and the utility were aware that the developer anticipated future phases of the subdivision, and the utility accepted the station design knowing that additional flows to the station could result in the utility requiring future station improvement at the developer's cost.

If you have any questions, please contact me by phone at (608) 877-7423 or by email at [JWeiss@stoughtonutilities.com](mailto:JWeiss@stoughtonutilities.com).

Sincerely,

**STOUGHTON UTILITIES**
