

**Targeted Runoff Management Program (TRM)
Grant Application – CY 2009 Funding**

Form 8700-300 (R 1/08)

Page 1 of ____

Notice: This application form template was drafted by the Wisconsin Department of Natural Resources. Application is hereby made to the Wisconsin Department of Natural Resources, Bureau of Watershed Management, for grant assistance consistent with s. 281.65, Wis. Stats., and Chapter NR 153 and NR 154, Wis. Adm. Code. Collection of this information is authorized under the authority of s. 281.65, Wis. Stats. The information contained in this form will be used for program budget analysis and project evaluation in the Targeted Runoff Management Grant Program. Personally identifiable information collected will be used for program administration and may be made available to requesters as required under Wisconsin's Open Records Law [ss. 19.31 - 19.39, Wis. Stats.]. *Unless otherwise noted, all citations refer to Wisconsin Administrative Code.*

Instructions: Complete all sections as applicable.

Applicant Information

Governmental Unit Applying: (name and type) (example: Madison, Town of)

Name of Authorized Representative (First Last) Steven V. Dickinsen			Name of Governmental Contact Person (First Last) (if different) Gaylord E. Olson II		
Title Land Conservation and Ag. Committee - Chair			Title County Conservationist		
Area Code + Telephone Number 715 284 0258			Area Code + Telephone Number 715 284 0256

Project Information

A. Project Name

Sampson Farm Barnyard Runoff Control

TRM Grant Project Name

Sampson Farm Barnyard Runoff Control**Project Information (continued)****B. Project Area Location**

County

Jackson

Minor Civil Division Name (city, village, town, etc. – ex. Wrightstown, Village of)	Township (N)	Range	E or W	Section	Quarter	Quarter- Quarter	Latitude (North , degrees, minutes, seconds)	Longitude (West , degrees, minutes, seconds)
Irving, Town of	20	5	w	30	SE	NE	44 10 51.9	91 0 51.7

Method for Determining Latitude & Longitude (check one)

☐ GPS☒ DNR WebView or Surface Water Data Viewer☐ Other (specify):**C. Project Summary**

The Sampson barnyard is next to a barn and silo where beef cattle are fed from October through April. Woodward Creek is 180 feet down slope from the barnyard area. The cattle accessed the creek because there was not adequate water available by the barn. In 2007 the landowner worked with DNR, DATCP and the LCD to remove the cattle from the stream and installed a well with watering facilities. This was a major environmental improvement. There is no way to contain the manure generated by the cattle near the barn and near the silo. The landowner scraps the concrete lot occasionally. The barnyard runoff control system would complete the environmental improvements to the site. The landowner has been very cooperative and is willing to complete the barnyard project. If funding is awarded from this grant this year the LCD would propose to DNR to allow the project to be completed in 2008 if there is still enough construction season left.

D. Watershed and Waterbody (see **Attachment A**. Example: Watershed Name: Oconomowoc River; Watershed Code: UR09; Primary Waterbody Name: Oconomowoc River; Nearest Waterbody: Flynn Creek.)

Watershed Name	Watershed Code	Primary Waterbody Name	Nearest Waterbody Name
Big and Douglas Creeks	BR 03	Douglas Creek	Woodward Creek

Note: If the project is in more than one watershed, submit a separate application for each watershed, unless this application is for a high-efficiency street sweeper.

Yes No

E. Project Target

- ☒ ☐ 1. The project will control agricultural runoff.
- ☐ ☒ 2. The project will control urban runoff.

TRM Grant Project Name

Sampson Farm Barnyard Runoff Control

Project Information (continued)

F. Request for Funding for “Total Maximum Daily Load” Implementation

- ☐ ☒ 1. Requesting funding for eligible best management practices (BMPs) which will directly implement the pollutant-specific goals of a public comment draft (as of April 9, 2008) or an EPA-approved Total Maximum Daily Load (TMDL).
- a. If “Yes”, provide the title of the TMDL report this project addresses.

- ☐ ☒ 2. Final reimbursement for eligible, TMDL implementation project costs will be requested no later than September 20, 2010.

G. Request for Funding of Land Acquisition or Easements

- ☐ ☒ Requesting funding for either land acquisition or purchase of easements as part of this application to support eligible BMPs. If “Yes”, attach the property acquisition proposal, as defined in **Attachment B.**, to the completed application form.

H. Request for Retroactive Funding for Design Costs

- ☒ ☐ Requesting reimbursement for design costs that have been or will be incurred before issuance of the grant.

I. Request for Funding for Force Account Work

- ☒ ☐ Requesting reimbursement for technical services to be performed by governmental unit staff (force account).

J. Endangered and Threatened Resources, Historic Properties, and Wetlands

Check the appropriate box for each question based on what the governmental unit knows to occur where the project disturbs land. If you have no evidence of the items below, check “No.”

- ☐ ☒ 1. There are endangered or threatened resources, as identified in s. 29.604, Wis. Stats., and ch. NR 27 in the project area.
- ☐ ☒ 2. There are archaeological sites, historical structures, burial sites, or other historic places identified in s. 44.45, Wis. Stats., in the project area.
- ☐ ☒ 3. There are wetlands in the project area that are governed by water quality standard provisions of ch. NR 103.

K. Environmental Contamination

- ☐ ☒ The applicant is aware of environmental contamination [other than nonpoint source pollution, e. g., volatile organic compounds (VOCs), or polychlorinated biphenyls (PCBs)] of the soil and/or groundwater or potential for contamination in the project area.

L. Urban Projects Only: Pro-rating for Existing versus New Development

- ☐ ☐ Project will serve existing development only. If no, provide attachments and the following:

100%

Percentage of total design volume that will be generated by existing development. (change default % if necessary)

M. Urban Projects Only: Alternative Funding Possibility

- ☐ ☐ This applicant requests that the DNR also submit a copy of this application to the Clean Water Fund loan program.

TRM Grant Project Name

Sampson Farm Barnyard Runoff Control**Part I. Screening Requirements (continued)****C. Filters**

Note: You must be able to answer "Yes" to Questions 1 through 5, and "Yes" or "N/A" (Not Applicable) to Questions 6 and 7 to be eligible for a grant.

Yes	No	
<input checked="" type="checkbox"/>	<input type="checkbox"/>	1. Project will be completed within 24 months of the start of the grant period.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	2. Staff and contractors designated to work on this project have adequate training, knowledge, and experience to implement the proposed project.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	3. Staff or contractual services, in addition to those funded by this grant, will be provided if needed.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	4. Best management practices constructed under this grant will not work at cross-purposes to (are consistent with) agricultural and non-agricultural performance standards under ch. NR 151. (see Attachment E.)
<input checked="" type="checkbox"/>	<input type="checkbox"/>	5. The local DNR Regional Nonpoint Source Coordinator (see Attachment C.) has been contacted about this project:

Name of the Regional Nonpoint Source Coordinator Contacted	Date Contacted	Subject of Contact
Dan Helsel	1.10.2008	Site specific conditions and BMPs

Yes	No	N/A	
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	6. If this is an application to construct ponds that connect with navigable waterways or in wetlands under ch. NR 343, the necessary waterway or wetland permit (chs. 30 or 281, Wis. Stats.) has been issued. If "Yes", give the permit number and date of decision.

Date of Decision	Permit Number

Please be aware that receipt of a **docket** number does **not** imply permit issuance. The receipt of the docket number merely acknowledges that your permit application has been received and has been assigned a place in the "review queue."

	7. If this is a proposed urban project which requires that the applicant have control of the property, you must either:
<input type="checkbox"/>	a) currently have control of this property; or
<input type="checkbox"/>	b) submit documentation with this application that you will obtain control of this property prior to the commencement of the grant period for this project.

If you answered "No" to one or more of the items in question C above, stop here. The project is ineligible.

D. Eligibility: Reason For Controlling Nonpoint Source Pollution In The Target Area

Yes	No	
<input checked="" type="checkbox"/>	<input type="checkbox"/>	1. The need for compliance with performance standards established by the DNR in ch. NR 151.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	2. The existence of nonpoint-source-impaired water bodies that the DNR has identified to the U.S. EPA under 33 USC 1313 (d)(1)(A), commonly referred to as the "s. 303(d) List."
<input type="checkbox"/>	<input checked="" type="checkbox"/>	3. The existence of outstanding or exceptional resource waters, as designated by the DNR in ss. NR 102.10 and NR 102.11.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	4. Other water quality concerns of statewide or national significance. (<u>Important:</u> You may only check this box if you are eligible to score ten (10) points in Part II, Question 4 "Basin Priorities" of this application.)
<input type="checkbox"/>	<input checked="" type="checkbox"/>	5. The existence of threats to public health.
		6. The existence of an animal feeding operation that has received a notice of discharge (NOD) under ch. NR 243 or a notice of intent (NOI) to issue a notice of discharge.

If you answered "Yes" to one or more of the items in question D above, continue to Part II. Otherwise, stop here. The project is ineligible.

TRM Grant Application – CY 2009 Funding

Form 8700-300 (R 1/08)

TRM Grant Project Name

Sampson Farm Barnyard Runoff Control**Part II. Minimum Qualifications****Question 1. Fiscal Accountability****A. Timeline and Source of Staff**

For each applicable milestone listed below, fill in the appropriate data:

Milestone	Target Completion Date (month/year)	Source of Staff
Completion of design	4.2008	Land Conservation Department
Obtaining required permits	3.2008	Land Conservation Department
Landowner contacts	9.2007	Land Conservation Department
Cost Share Agreement (CSA) signing	9.2008	Land Conservation Department
Bidding	9.2008	Land Conservation Department
DNR approvals	9.2008	DNR and LCD
Contract signing	9.2008	Land Conservation Department
BMP construction	10.2008	Land Conservation Department
Site inspection and certification	11.2008	Land Conservation Department
Project evaluation	12.2008	Land Conservation Department
Purchase street sweeper (urban only)		
Other (specify)		

B. Adequate Financial Budget

Provide the following information for the project. The grant amount is capped at \$150,000.

FINANCIAL BUDGET TABLE

A.	B.	C.
Project Activity for Which <u>DNR Funding</u> is Requested	Estimated Total Cost (\$)	Amount from Column B. Eligible for DNR Cost Sharing (\$)
Construction Components:		
Access Roads and Cattle Crossings - 200 feet	3,200	3,200
Animal Trails and Walkways - 300 feet	8,000	8,000
Barnyard Runoff Control Systems -One	57,000	57,000
Livestock Watering Facilities - One	1,300	1,300
Sediment Basins - One	14,000	14,000
Waterway Systems - 0.25 Acres	800	800
Construction inspection - 80 Hours @ \$40.00/hour	3,200	3,200
1. Construction Subtotal	\$87,500	\$87,500
2. Engineering Services (including design)	\$3,200	\$3,200
3. Storm Sewer Reroute (Urban projects only)	\$0	\$0
4. Structure Removal (Urban projects only)	\$0	\$0
5. Subtotal [add rows (1) through (4)]	\$90,700	\$90,700
6. Property Acquisition: Fee Title and Easement	\$0	\$0
7. Grand Total [add rows (5) and (6)]	\$90,700	\$90,700

TRM Grant Project Name

Sampson Farm Barnyard Runoff Control**Part II. Minimum Qualifications (continued)****Cost-Sharing Worksheet****Eligible Costs:**

Multiply the eligible costs (Column C.) by the percent for proration (if applicable) and the applicable cost-share rate. Enter the result in the column on the right.

		Prorate %	Cost-Share %	
8. Construction, engineering services, etc. (if other percent, specify)		100%	70%	\$ 63,490
Costs Specific to Agricultural Projects:				
9. Land Purchase (Fee Title)	\$ 0	-	50%	\$ 0
10. Agricultural Easements	\$ 0	-	70%	\$ 0
Costs Specific to Urban Projects:				
11. Property Acquisition: Fee Title and Easement	\$	100%	50%	\$ 0
12. Storm Sewer Rerouting		100%	50%	\$ 0
13. Structure Removal		100%	50%	\$ 0
14. Total Eligible Costs: [sum rows (8) through (13)]				\$ 63,490
Cap Test:				
15. Maximum State Share: [(row 14) or \$150,000, whichever is less]				\$ 63,490
State and Local Share:				
16. Requested State-Share Amount (Requested Grant Amount)				\$ 63,490
17. Local-Share Amount: [(row 7), Column B. less (row 16)]				\$ 27,210

Method(s) Used to Calculate Cost Estimates

The LCD conservation technician has designed the best management practices necessary to complete the project. The BMPs are broke into items and assigned quantities on bid sheets for the contractors to submit bids.

C. Cost-Effectiveness

1. Tangible Benefits

a. Primary Benefit:

List the nonpoint source pollutants to be controlled by the project.

Manure and sediment runoff from the existing barnyard will be controlled. A nutrient management plan will be developed so the manure and other fertilizer utilization should be improved.

b. Secondary Benefits:

Which of the following secondary benefits will be achieved by implementing this project? (check all that apply)

- ☒ Fish and wildlife habitat enhancement
- ☒ Enhancements to recreation
- ☐ Public safety
- ☒ Economical operation, economical maintenance and enhanced life expectancy of the BMP
- ☐ Other (specify): _____

TRM Grant Project Name
Sampson Farm Barnyard Runoff Control

Part II. Minimum Qualifications (continued)

2. Cost-Effectiveness
Explain why the proposed project is cost-effective considering the environmental benefit(s) and cost of the project.
The farmer plans to continue to raise cattle on the site. The existing barn and silo on site is in good condition. Moving the operation to another site would be more costly than containing the manure runoff from the lot. Improvements were made in 2007 to keep cattle away from the creek and water near the buildings. The barnyard runoff control practice would be the final construction step to manage manure at the site. The nutrient management plan would provide information to the landowner how and where to spread the manure.

Yes

☐

No

☒

3. Alternatives
a. There is more than one way to achieve the benefits checked above. If “No,” go to part b.
1) If “Yes,” complete the following table with information for the alternative you have chosen and one or two other alternatives. Note that the table requires information about the cost and pollutant load/potential reductions for each alternative considered.

Alternatives Analysis				
	A.	B.	C.	D.
	Alternative	Cost	Effectiveness	(B. ÷ C.) Cost-Effectiveness
		Estimated Amount	Estimated % of Pollutant Load Reduction	
1		\$	%	
2		\$	%	
3		\$	%	

- 2) If the applicant is not choosing the alternative with the lowest ratio of cost to pollutant load/potential reductions, explain why it was not chosen in terms of any of the following: feasibility, secondary benefits potential, or other mitigating factors.

- b. If the answer to part 3.a. was “No,” explain why there is no other reasonable alternative to achieve the reduction in pollutant loading/potential or the secondary benefits checked above.
The cattle are fed near the barn and watered there during the winter. There are no alternative sites to feed the cattle at the location. The barnyard runoff control system allows the cattle to be fed on some of the existing concrete and then capture the runoff before reaching the creek 250 feet away.

TRM Grant Project Name
Sampson Farm Barnyard Runoff Control

Part II. Minimum Qualifications (continued)

Question 2. Project Evaluation Strategy

The applicant must agree to provide a description of the modeled results or changes in pollution potential in the final project report. The project evaluation strategy will be based on comparing pre- and post-project changes in modeled pollutant loading to water resources or will be based on the quantity of units managed.

A. Modeling and Measures of Change

Pre- and post-project evaluation measures that the applicant will use to ensure success in meeting project goals:
(check all that apply)

	Agricultural Performance Standard or Prohibition	Units of Measure	Recommended Measurement Method
<input type="checkbox"/>	Sheet, rill and wind erosion	Acres meeting T	RUSLE-2 or wind erosion model
<input type="checkbox"/>	Manure Storage Facilities: New Construction/Alterations	Number of facilities	count
		Number of animal units	count
<input type="checkbox"/>	Manure Storage Facilities: Closure	Number of facilities	count
<input type="checkbox"/>	Manure Storage Facilities: Failing/Leaking Facilities	Number of facilities	count
		Number of animal units	count
<input type="checkbox"/>	Clean Water Diversions in WQMA	Pollutant load reduction	BARNY Model
		Number of farms with diversions	count
		Number animal units	count
<input checked="" type="checkbox"/>	Nutrient Management on Agricultural Land	Acres planned	count
<input type="checkbox"/>	Prohibition: Manure Storage Overflow	Number of facilities	count
		Number of animal units	count
<input type="checkbox"/>	Prohibition: Unconfined Manure Pile in WQMA	Number of farms	count
<input checked="" type="checkbox"/>	Prohibition: Direct Runoff From Feedlot/Stored Manure	Pollutant load reduction	BARNY Model
		Number of facilities	count
		Number of animal units	count
<input checked="" type="checkbox"/>	Prohibition: Unlimited Livestock Access	Feet of bank protected	count
		Number of farms	count
Other Priority for Agricultural Area			
<input type="checkbox"/>	Buffers	Feet of bank protected	CREP formula
		Number of farms	count
<input type="checkbox"/>	Streambank	Tons of bank erosion reduced	NRCS bank erosion formula
		Feet of bank protected	count
<input type="checkbox"/>	Other (specify)		
Priority for Developed Urban Area			
<input type="checkbox"/>	20-40% Reduction in Total Suspended Solids (TSS)	Pounds TSS reduced	SLAMM, P-8
		% TSS reduction	
<input type="checkbox"/>	Infiltration	% Pre-development stay-on volume	Recarga, SLAMM, P-8
		Cubic feet stay-on volume	
<input type="checkbox"/>	Peak flow discharge	Change in cubic feet per second	TR-55 or equivalent
<input type="checkbox"/>	Protective areas	Feet of bank protected	count
<input type="checkbox"/>	Fueling and maintenance areas	Oily sheen presence	visual assessment
<input type="checkbox"/>	Streambank	Tons of bank erosion reduced	NRCS bank erosion formula
		Feet of bank protected	count
<input type="checkbox"/>	Other (specify)		

Yes No

B. Monitoring (not eligible for cost sharing at this time)

- ☐ ☒ The project evaluation strategy will provide pre- and post-project information from water resource monitoring. If "Yes," check all that apply below.
- ☐ The project will evaluate the physical habitat, fisheries, biological, or chemical conditions.
- ☐ A one-page summary of the monitoring strategy is attached.

TRM Grant Project Name
Sampson Farm Barnyard Runoff Control

Part II. Minimum Qualifications (continued)

Yes No **C. Additional Monitoring**

☐ ☒

The applicant is willing to participate with the Department to do monitoring in the project area should funding become available.

Question 3. Evidence of Local Support

The level of local support that currently exists for the proposed project.

Agricultural Projects:

Yes No **A. Government**

1. **Regulatory Situations** If you answered "Yes" to both items (A. 1.a and A. 1.b) below, go to Question 4. Otherwise, continue to part A.2. of this Question.

☒ ☐

a. At least 75% of the total project cost is attributed to the resolution of a Notice of Discharge (NOD) or a Notice of Intent to Issue an NOD (NOI) under ch. NR 243 or non-compliance with agricultural performance standards and prohibitions under subch. II of NR 151 or a local regulation.

☒ ☐

b. At least one of the following is attached to this application form:

1. copy of the NOI issued under ch. NR 243, or
2. copy of the NOD issue under ch. NR 243, or
3. copy of letter signed by DNR stating that DNR will issue an NOI or NOD under ch. NR 243 if cost sharing is provided, or
4. copy of letter signed by DNR and the county that a notice, under s. NR 151.09 or s. 151.095, will be issued if necessary, or
5. copy of letter signed by the county that the local regulation will be enforced at the project site.

2. **Non-Regulatory Situations**

☐ ☐

a. The governmental unit has developed:

☐ ☐

i. a detailed pollution control plan with the landowners that identifies specific best management practices (BMPs);

☐ ☐

ii. general assessments of the pollution sources within the project area.

☐ ☐

b. The governmental unit has contacted the landowner(s)/land operator(s) about the proposed BMP installations.

If "Yes," provide details.

Yes No **B. Landowners & Partners**

1. **Level of Landowner Participation**

☐ ☐

a. A majority of the affected landowners/land operators have specifically indicated that they will sign a cost-share agreement (CSA) to install the practices requested in this grant application.

☐ ☐

b. A majority of the affected landowners/land operators have indicated a general interest to participate in the project.

☐ ☐

c. Letters of support for the project from affected landowners/land operators are attached.

2. **Involvement of Partners**

☐ ☐

a. Partners, in addition to the unit of government (applicant) and landowner, have committed resources (materials, equipment, staff or financial resources) towards the BMP installation, maintenance, or evaluation of the project.

If "Yes," list the project partner(s).

☐ ☐

b. Letters of support from the project partner(s) are attached.

TRM Grant Project Name

Sampson Farm Barnyard Runoff Control

Part II. Minimum Qualifications (continued)**Urban Projects:**

- Yes No **A. Government**
1. The local-share funds for the construction/installation expenses:
- ☐ ☐ a. are already included specifically in an adopted budget;
- ☐ ☐ b. will be included in a proposed budget.
- ☐ ☐ 2. The governmental unit has already conducted public information activities within the project area for this practice.
- If "Yes," provide details on the opportunity for public reaction the governmental unit provided and indicate the general public support or non-support for the project that was indicated.

- Yes No **B. Landowners**
1. The governmental unit:
- ☐ ☐ a. already owns, or holds an easement for, the land on which the project is to be installed;
- ☐ ☐ b. is submitting with the application a list of landowners, occupants, or tenants that occupy the property and information indicating each party's willingness to sell or ease the necessary parcel.
- ☐ ☐ 2. Evidence of citizen (non-governmental) support for the project (such as letters from the neighborhood association, a civic group or an environmental organization voicing support) is attached.

Question 4. Basin Priorities (check one, A through H)

- ☒ **A. Clean Water Act s. 303(d) List of Impaired Waters**
Project with water quality goals directly dealing with a waterbody (lake or stream) on the latest Clean Water Act (CWA) s. 303(d) List of impaired waters, where the cause of the water quality impairment is nonpoint source pollution, and this project will reduce the type of nonpoint source pollutants for which the water is listed. (See **Attachment A.**)
- ☐ **B. Outstanding and Exceptional Resource Waters**
Waterbody is included in s. NR 102.10 (Outstanding Resource Waters) and/or s. NR 102.11 (Exceptional Resource Waters).
- ☐ **C. NPS Rankings**
Project is located in a large-scale watershed, a small-scale watershed, lake watershed, or other area ranked high or medium on the NPS Rankings List, where the goals of the project are directly associated with the reason for the ranking on the NPS Rankings List.
- ☐ **D. Amendment of the NPS Rankings List Using State of the Basin Reports**
Project is located within a watershed ranked low or not ranked on the NPS Rankings List, but information in a DNR State of the Basin report indicates a need to amend the NPS Rankings List because the stream, stream segment, or lake is being affected by nonpoint sources of pollution.
- ☐ **E. Amendment of the NPS Rankings List Using Other Data Sources**
Project is located within a watershed ranked low or not ranked on the NPS Rankings List, but adequate data exists to request a ranking of high or medium for a waterbody that that is being affected by nonpoint sources of pollution.
- ☐ **F. Sources of Information for Areas Not Included in State of the Basin Reports**
For some border waters, there is no State of the Basin report (*i.e.*, along the Mississippi River or the Great Lakes). For these situations, another governmental document, accepted by the Regional NPS Coordinator, may be used to classify the resource as having a significant nonpoint source pollution impairment.
- ☒ **G. Governmental Notices**
The applicant has checked "Yes" to both parts of Part II, Question 3, A.1.
- ☐ **H. Not Included in Other Categories Above**

TRM Grant Project Name
Sampson Farm Barnyard Runoff Control

Part III. Competitive Elements

Question 5. Water Quality Needs (check one, A through G)

The water quality category which best identifies the water quality goals for the project directly deals with:

Note: For border waters where a State of the Basin Report does not exist, another governmental document acceptable to the Regional Nonpoint Source Coordinator may be used to identify the water quality need.

Surface Water Considerations

- ☒ **A. Clean Water Act s. 303(d) List of Impaired Waters**
A waterbody (lake or stream) on the latest Clean Water Act (CWA) s. 303(d) List of impaired waters, where the cause of the water quality impairment is nonpoint source pollution, and this project will reduce the type of nonpoint source pollutants for which the water is listed. (See **Attachment A.**)
- ☐ **B. Not Fully Meeting Uses**
A waterbody (lake or stream) identified in a DNR State of the Basin report as not meeting or partially meeting designated uses due to nonpoint sources, but is not on the s. 303(d) List.
- ☐ **C. Outstanding or Exceptional Resource Waters**
Prevention of degradation due to nonpoint sources of outstanding or exceptional resource waters or high quality, recreationally significant waters.
- ☐ **D. Surface Water Quality**
Prevention of surface water quality degradation due to nonpoint sources. Waters in this category are not high quality, recreationally significant waters.

Groundwater Considerations*

- ☐ **E. Exceeds Groundwater Enforcement Standard**
Groundwater within the project area where representative information indicates there are levels for NPS contaminants that exceed groundwater enforcement standards.
- ☐ **F. Groundwater Quality**
The project area is within a geological area defined in s. NR 151.015(18) as susceptible to groundwater contamination. (See **Attachment G.**)
- ☐ **G. Exceeds Groundwater Preventive Action Limit**
Groundwater within the project area where representative information indicates there are levels for NPS contaminants that exceed groundwater preventive action limits.

Bonus Points:

Yes No

- ☐ ☒ Water quality goals relate to the control of nonpoint source contaminants in public drinking water supplies.
1. If "Yes," and the source of drinking water affected by the project area is groundwater, the project protects:
- ☐ a. One wellhead protection area;*
- OR
- ☐ b. More than one wellhead protection area.*
2. If "Yes," and the source of drinking water affected by the project area is surface water, check the source water assessment area (drainage area) in which the project is located:
- | | |
|---|---|
| <input type="checkbox"/> Pike River & Creek | <input type="checkbox"/> Twin Rivers |
| <input type="checkbox"/> Root River | <input type="checkbox"/> Kewaunee & Ahnapee Rivers |
| <input type="checkbox"/> Oak Creek | <input type="checkbox"/> Menominee River |
| <input type="checkbox"/> Milwaukee River | <input type="checkbox"/> Fish Creek |
| <input type="checkbox"/> Sauk Creek | <input type="checkbox"/> St. Louis & Nemadji Rivers |
| <input type="checkbox"/> Sheboygan & Onion Rivers | <input type="checkbox"/> Lake Winnebago |
| <input type="checkbox"/> Manitowoc River | |

TRM Grant Project Name

Sampson Farm Barnyard Runoff Control**Part III. Competitive Elements (continued)****Question 6. Extent of Pollutant Control**

Yes No

☒ ☐**A. Ch. NR 151 Agricultural Performance Standards and Prohibitions**

The proposed project addresses at least one of the ch. NR 151 agricultural performance standards and prohibitions. Indicate the performance standard(s) or prohibition(s) that is/are the focus of this project. (check all that apply)

- ☐ a. Sheet, rill, and wind erosion. (s. NR 151.02)
- ☐ b. Manure storage facilities: new/significant alterations. (s. NR 151.05(2))
- ☐ c. Manure storage facilities: closure. (s. NR 151.05(3))
- ☐ d. Manure storage facilities: existing failing/leaking. (s. NR 151.05(4))
- ☐ e. Clean water diversions. (s. NR 151.06)
- ☐ f. Nutrient management. (s. NR 151.07)
- ☐ g. Prohibition: Prevention of overflow from manure storage facilities. (s. NR 151.08(2))
- ☐ h. Prohibition: Prevention of unconfined manure piles in water quality management areas (within 300 feet of a stream, 1000 feet. of a lake, or areas where the groundwater is susceptible to contamination). (s. NR 151.08(3))
- ☒ i. Prohibition: Prevention of direct runoff from a feedlot or stored manure into waters of the state. (s. NR 151.08(4))
- ☐ j. Prohibition: Prevention of unlimited livestock access to waters of the state where high concentrations of animals prevent the maintenance of adequate sod cover or self-sustaining vegetation. (s. NR 151.08(5))

Yes No

☐ ☒**B. Other Water Resources Management Priority**

The proposed project addresses a water resources management priority other than a ch. NR 151 agricultural performance standard or prohibition.

If "Yes," describe the priority and how the project addresses this priority.

Yes No

☐ ☒**C. Planning Data and Source Targeting**

The applicant has quantitative planning information that ranks pollution sources from highest to lowest in severity and the proposed project will manage a pollution source contained in the top 50% of the ranked list. If "Yes," provide:

a. Description of planning data;

b. Name of document(s);

c. Date(s) published;

d. Pertinent page numbers.

e. A copy of non-state document(s) is available:

☐ At this website; http://

☐ Attached to this application form.

☐ Contact this person: Name: Phone:

TRM Grant Project Name

Sampson Farm Barnyard Runoff Control**Part III. Competitive Elements (continued)****Question 7. Consistency with Resource Management Plans**

Yes No

- ☒ ☐ The project implements a water quality recommendation from a locally-approved resource management plan.

Summarize the water quality recommendation. Cite the name and date(s) of publication of the document.

From the Jackson County Land and Water Resource Management Plan 2007 - 2012, page 31, Attachment 12, Adopted by Jackson County on April 4, 2007.

The first goal from the Work Plan is "Improve Manure Mangement and Reduce Manure Runoff to the Waters of Jackson County". The first objective was to "Prevent Manure Runoff from impacting County surface waters". The third action item was to "Implement the State Performance Standards in conjunction with the county ordinances".

Question 8. Use of Additional Funding

Yes No

- ☒ ☐ A. The state share is less than the \$150,000 cap.
- ☐ ☒ B. Funding requested is below the maximum allowable cost-share rate (amount is **less than** [Part II. Question 1. row 15]).

Question 9. City of Racine

Yes No

- ☐ ☒ This is an application from the City of Racine for a project that is necessary for the city to comply with state storm water permitting requirements.

TRM Grant Project Name
Sampson Farm Barnyard Runoff Control

Part IV. Eligibility for Multipliers

Completion of this part of the application is optional. However, an applicant can increase the final project score by qualifying for a project multiplier.

Agricultural Projects (select all that are in place as of the application submittal date)

A. Local Implementation Program (factor 0.1) (check all that apply)

Check activities listed below that are part of the local program to implement agricultural performance standards and prohibitions contained in ch. NR 151. Check all activities that apply. An activity may be checked "Yes" if either of the following is true:

- The activity is currently assigned to the applicant, or another local unit of government, in an approved Land and Water Resources Management Plan (LWRMP), an updated LWRMP work plan or an Inter-Governmental Agreement (IGA) with the Department of Natural Resources. List the document and page number where the activity is addressed.
- The activity is not currently assigned in one of these documents, but the applicant describes, in the space provided below, who will conduct the activity.

Yes	No		Document	Page Number
<input checked="" type="checkbox"/>	<input type="checkbox"/>	1. Inform and educate landowners/operators about performance standards and prohibitions.	Jackson County LWRMP 2007-2012	16-18
<input checked="" type="checkbox"/>	<input type="checkbox"/>	2. Conduct compliance status surveys, including on-site visits, for croplands and livestock facilities and convey compliance status to landowners/operators.	Jackson Co. LWRMP	14
<input checked="" type="checkbox"/>	<input type="checkbox"/>	3. Discuss with landowners/operators the best management practices needed to achieve compliance with performance standards and prohibitions.	Jackson Co. LWRMP	14
<input checked="" type="checkbox"/>	<input type="checkbox"/>	4. Seek financial assistance for landowners/operators to achieve compliance with performance standards and prohibitions.	Jackson Co. LWRMP	14
<input checked="" type="checkbox"/>	<input type="checkbox"/>	5. Develop cost-share agreements with landowners/operators and provide them with technical assistance to achieve compliance with performance standards and prohibitions.	Jackson Co. LWRMP	14
<input checked="" type="checkbox"/>	<input type="checkbox"/>	6. Track compliance status of croplands and livestock facilities and provide compliance status information to the Department of Natural Resources upon request. This includes notifying DNR when a landowner/operator does not comply with a notice issued under s. NR 151.09 or s. NR 151.095.	Jackson Co. LWRMP	14-15
<input checked="" type="checkbox"/>	<input type="checkbox"/>	7. Provide assistance to the Department of Natural Resources to issue notices under s. NR 151.09 and s. NR 151.095.	Jackson Co. LWRMP	15
<input checked="" type="checkbox"/>	<input type="checkbox"/>	8. In situations where local regulations do not require compliance with a performance standard or prohibition, refer cases of non-compliance to the local district attorney or the Department of Natural Resources.	Jackson Co. LWRMP	14

If an item checked above is not covered by a LWRMP, an updated LWRMP work plan or an IGA with DNR, list the activity and identify who will carry it out.

If all items (1 through 8) above are checked "Yes," go on to part B. Otherwise, stop here.

TRM Grant Project Name

Sampson Farm Barnyard Runoff Control**Part IV. Eligibility for Multipliers (continued)****B. Local Enforcement Program – Scope of Local Regulations** (factor 0.15) (check all that apply)

If there are local ordinances in place which authorize the governmental unit to require the landowner to correct the nonpoint pollution sources for which cost sharing is being offered, then the applicant may earn an enforcement multiplier.

Complete the following table by identifying each of the performance standards and prohibitions that the grant will address, the estimated portion of the grant that will be used to address each standard and prohibition, and the local regulation that applies to the specific situation being addressed at the site. The Department will calculate the enforcement multiplier based on the extent to which local regulations provide authority for the governmental unit to regulate the specific performance standards and prohibitions for which the cost share is being provided at the specific site being funded.

Check the appropriate performance standard/prohibition per line. The standard(s)/prohibition(s) selected below should be the same one/s cited in the answer(s) to Question 6.A. [e.g., 6.A.a. "Sheet, rill and wind erosion (s. NR 151.02)].

Column 1	Column 2	Column 3		Column 4
Performance standard/prohibition to be addressed with funding. Check all that apply, as in Question 6.A.	Estimated portion (%) of the grant award to be spent on the performance standard/prohibition. The sum should equal 100%.	Is there a local regulation which addresses the specific site being funded?		If there is a local regulation which addresses the specific site being funded, list the name and applicable section of the ordinance.
		Yes	No	
<input type="checkbox"/> a. Sheet, rill, and wind erosion. (s. NR 151.02)		<input type="checkbox"/>	<input type="checkbox"/>	
<input type="checkbox"/> b. Manure storage facilities: new/significant alterations. (s. NR 151.05(02))		<input type="checkbox"/>	<input type="checkbox"/>	
<input type="checkbox"/> c. Manure storage facilities: closure (s. NR 151.05(03))		<input type="checkbox"/>	<input type="checkbox"/>	
<input type="checkbox"/> d. Manure storage facilities: existing failing/leaking. (s. NR 151.05(4))		<input type="checkbox"/>	<input type="checkbox"/>	
<input type="checkbox"/> e. Clean water diversions. (s. NR 151.06)		<input type="checkbox"/>	<input type="checkbox"/>	
<input type="checkbox"/> f. Nutrient management. (s. NR 151.07)		<input type="checkbox"/>	<input type="checkbox"/>	
<input type="checkbox"/> g. Prohibition: Prevention of overflow from manure storage facilities. (s. NR 151.08(2))		<input type="checkbox"/>	<input type="checkbox"/>	
<input type="checkbox"/> h. Prohibition: Prevention of unconfined manure piles in water quality management areas (within 300 ft. of a stream, 1000 ft. of a lake, or areas where the groundwater is susceptible to contamination). (s. NR 151.08(3))		<input type="checkbox"/>	<input type="checkbox"/>	
<input checked="" type="checkbox"/> i. Prohibition: Prevention of direct runoff from a feedlot or stored manure into waters of the state. (s. NR 151.08(4))	100	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Jackson County Livestock and Animal Facility Licensing Ordinance - Section 23.07 - Licensing Standards

TRM Grant Application – CY 2009 Funding

Form 8700-300 (R 1/08)

Sampson Farm Barnyard Runoff Control**Part IV. Eligibility for Multipliers (continued)****Optional Additional Information**

Carefully review the answers to all of the questions above. Is there additional information that will add to the understanding of this project? If so, describe here.

Applicant Certification

An Authorized Representative must sign and date the application form prior to submittal to the DNR. All four (4) copies must include original signatures of the Authorized Representative.

I certify that, to the best of my knowledge, the information contained in this application and attachments is correct and true.

Signature of Authorized Representative

Date Signed

Name and title, please print **Steven V. Dickinsen, LCAC Chair,**Telephone Number **715.284.0258**

Fax Number

E-Mail Address

Mailing Address **Jackson County, 307 Main Street/County Courthouse , Black River Falls, WI, 54615**

To be considered for funding, provide the following for each application submitted:

- One (1) copy of the completed application form [DNR Form 8700-300 (R 1/08)] with original signature in blue ink;
- Three (3) additional copies of the completed, signed application form;
- One (1) electronic copy of the completed application form on CD or diskette in Microsoft Word format only.

All application materials must be postmarked by midnight **April 15, 2008**.
