

**The purpose of this form is to notify DNR of a new populations of AIS. Only use if you found an aquatic invasive species where it hasn't been found previously.**

To find where aquatic invasives have already been found, visit: <https://dnr.wi.gov/lakes/invasives/AISByWaterbody.aspx>

**Notice:** Information on this voluntary form is collected under ss. 33.02 and 281.11, Wis. Stats. Personally identifiable information collected on this form will be incorporated into the DNR Surface Water Integrated Monitoring System (SWIMS) Database. It is not intended to be used for any other purposes, but may be made available to requesters under Wisconsin's Public Records laws, ss. 19.32 - 19.39, Wis. Stats.

**If the plant or animal cannot be collected due to safety concerns or it is located on private property, please take a photo (see Sample section below). DNR staff will then follow-up if further monitoring is needed for identification**

**Primary Data Collector**

Name Molly Russell (Contact Stephanie Boismenu)	Phone Number (715) 369-7835	Email sboismenu@oneida countywi.gov
----------------------------------------------------	--------------------------------	----------------------------------------

**Location**

Name (e.g. Lake, Stream, Wetland) Buckskin Lake	Township Minocqua	County Oneida
----------------------------------------------------	----------------------	------------------

**Date and Time of Monitoring or Discovery**

Monitoring Date 07/01/2025	Start Time 9:00 AM	End Time 3:30 PM
-------------------------------	-----------------------	---------------------

**Information on the Aquatic Invasive Species Found (Fill out one form for each species found.)**

AQUATIC PLANTS Curly-leaf pondweed	RIPARIAN PLANTS	INVERTEBRATES
---------------------------------------	-----------------	---------------

Habitat Type (Lake, Stream, Wetland, Roadside, or Other)

Lake

Where did you find the invasive species? (Give boat landing, nearest intersection/road, stream crossing, and general description)  
 Scattered uprooted CLP at the Buckskin Lake boat landing (45.892909, -89.926680) in Oneida Co and a larger 534,381 sq. ft. bed on the north end of the lake in Vilas County (45.9053, -89.9342). See map.

Latitude in decimal degrees (xx.xxxxx, -xx.xxxxx): 45.892909	Longitude in decimal degrees (xx.xxxxx, -xx.xxxxx): -89.92668
-----------------------------------------------------------------	------------------------------------------------------------------

Area species was covering. Estimate in square feet. 534,381	About how many individuals were there (1, 50, 100, 1,000, many beds, etc.)? >50
----------------------------------------------------------------	------------------------------------------------------------------------------------

Can the species move or is it attached? Check One: <input checked="" type="radio"/> Rooted/Attached <input type="radio"/> Floating/Swimming/Crawling	Is specimen alive or dead? Check One: <input type="radio"/> Live <input checked="" type="radio"/> Dead
---------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------

**Habitat**

Water depth where the Invasive(s) were found (if applicable)	6	<input checked="" type="radio"/> Feet <input type="radio"/> Meters
--------------------------------------------------------------	---	--------------------------------------------------------------------

Where was the Invasive Species Located? Check all that apply

<input checked="" type="checkbox"/> Below water	<input checked="" type="checkbox"/> Mud / Muck	<input type="checkbox"/> Sand	<input type="checkbox"/> Rock	<input type="checkbox"/> In/on plants	<input type="checkbox"/> Dock / Pier
<input type="checkbox"/> Watercraft	<input type="checkbox"/> Above water	<input type="checkbox"/> Shoreline	<input type="checkbox"/> Wet field	<input type="checkbox"/> Ditch	<input checked="" type="checkbox"/> Other Washed up on boat landing

**Sample**

Please collect up to five specimens and bring a copy of this form, along with the sample and a map showing where you found the suspect invasive species to your regional DNR AIS Coordinator.

While field collecting, animal specimens can be kept alive in a container with just about 1/2 inch of water in the bottom and plants can be collected in a ziploc bag with a damp paper towel. Freeze animals at the end of the day in a ziploc bag without water. If freezing is not possible, place specimen in ethanol (except for Jellyfish - leave in water or put in hand sanitizer). Plants can be left in a bag or pressed.

Did you collect a sample (specimen) and bring it to your local DNR office? If so, which office?

<input type="checkbox"/> Eau Claire	<input type="checkbox"/> Green Bay	<input type="checkbox"/> Plymouth	<input type="checkbox"/> Spooner	<input type="checkbox"/> Did not take sample to a DNR office
<input type="checkbox"/> Fitchburg	<input type="checkbox"/> Oshkosh	<input checked="" type="checkbox"/> Rhinelander	<input type="checkbox"/> Superior	<input checked="" type="checkbox"/> Other Office Molly emailed Scott VanEgeren 7/2/2

Photo Taken?  Yes  No Photos should be sent to WNDR AIS Coordinators

# Aquatic Invasive Species Incident Report

Form 3200-153 (R 03/22)

Page 2 of 2

**Please enter the incident report in SWIMS under the Incident Report project for the county the AIS was found in. Then, keep the paper copy for your records.**

Has the Incident Report been entered into SWIMS?  Yes  No

## For DNR AIS Coordinator to fill out

AIS Coordinator or qualified field staff who verified the occurrence:

Second Verifier:

Was the specimen confirmed as the species indicated above?  Yes  No

if no, what was it?

Was a voucher submitted to a museum or herbarium?  Yes  No

Museum where specimen is housed:

Museum Specimen ID:

Have the results of verification been entered into SWIMS?  Yes  No

Have you entered the results of the voucher in SWIMS?  Yes  No
