| Proposal Summary                  |  |
|-----------------------------------|--|
| <b>Funding Opportunity #:</b>     | EPA-R5-GL2010-1  |
| <b>Program Area:</b>              | Beach Sanitary Surveys   |
| <b>Focus Area:</b>                | Nearshore Health and Nonpoint Source Pollution   |
| <b>Proposal Name:</b>             | Implementation of BMP's at Beaches to Improve Water Quality  |
| <b>Organization Name:</b>         | Door County Soil & Water Conservation Department   |
| <b>Proposal #:</b>                | EPAGLNPO-2010-NS-2-452-355   |
| <b>Submission Date:</b>           | 2010-01-29 10:40:55  |
| <b>Proposal Funding Request:</b>  | \$250,000  |
| <b>Brief Project Description:</b> | This project will offer municipalities a cost-share incentive for the construction of best management practices, according to finalized construction plans, to reduce stormwater contamination from entering beaches, increase overall beach health and water quality, and ultimately reduce beach closures and advisories. The Door County Soil & Water Conservation Department (DCSWCD) was able to work with municipalities through an extensive series of phases including source identification, preliminary design planning, and final design development. The next necessary phase is the construction and implementation of final designs. |
