- 4. Type of Organization:** Bay-Lake Regional Planning Commission (RPC) is a special  
purpose district regional planning organization covering tributary areas to Lake Michigan  
from Sheboygan to Marinette, Wisconsin.
  
- 5. Proposed Funding Request:** \$771,876
  
- 6. Brief Project Description:** This 2-year, regional project is focused on using high  
resolution multi-spectral aerial mapping technology to remotely identify the major factors  
contributing to beach pollution and deteriorated water quality in the nearshore areas of  
Lake Michigan that are included within the boundaries of Bay-Lake RPC. This  
encompasses approximately 400 miles of shoreline within the counties of Marinette,  
Kewaunee, Manitowoc and Sheboygan. Such regional data would allow for more  
comprehensive cause and effect comparisons and provide invaluable tools for regional  
planning and remediation activities.
