

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: ARRA_Project16 WTDP
Name: ARRA 16 Lake Mallalieu/Willow River TMDL Grant 2P-00E73201
Type: Grant Project
Subtype: ARRA Pass Through Project
Status: ACTIVE
Start Date: 01/21/2010
End Date: 06/30/2011
Purpose: Develop a TMDL implementation plan for Lake Mallalieu/Willow River.
Objective: Complete a TMDL Implementation Plan for the Willow River and Lake Mallalieu. This plan will outline a framework for implementing point and non-point source controls in the watershed that will reverse eutrophication of the lake and the Willow River. Using information gathered from previous monitoring in the watershed, DNR water quality planning databases will be updated for the Willow. The Area-wide Water Quality Management Plan will also be amended to include the Willow River water quality goals and limits.
Comments: DUNS #: _____ CCR#: _____
 Total project award: \$25,500
Outcome:

- o Area-wide Water Quality Plan amendment that implements the Willow River TMDL goals and loading limits.
- o Lake Mallalieu TMDL Implementation Plan developed with stakeholder input.
- o Mass cap limits for phosphorus to be incorporated in WPDES permits.
- o Road map for achieving non-point source reductions needed to achieve the TMDL goals.
- o Updated DNR basin planning databases for the Willow River watershed.

Project Statuses

Date	Reported By	Status	Comments
04/22/2010	KATHY BARTILSON	Active	Report provided by Kyle Kulow and uploaded by Kathy Bartilson
07/08/2010	KATHY BARTILSON	Progress: 0-25% Co	Report provided by Kyle Kulow and uploaded by Kathy Bartilson
10/20/2010	MOLLI MACDONALD	Progress: 25-50% C	Provided by Kyle Kulow: We continue to work on an implementation strategy fro the Lake Mallalieu/Willow River TMDL. We intend to have a "rough" draft of the TMDL Implementation Plan ready by March of 2011.
01/11/2011	MOLLI MACDONALD	Progress: 50-75% C	Report provided by Kyle Kulow: We are currently putting together the first three elements of a "draft" TMDL Implementation Plan. A timeline of the plan's development is as follows: <ul style="list-style-type: none"> - TMDL Element 1 proposed completion date: 01/29/2011 - TMDL Element 2 proposed completion date: 01/29/2011 - TMDL Element 3 proposed completion date: 04/29/2011 - TMDL Element 4 proposed completion date: 04/29/2011 - TMDL Element 5 proposed completion date: 01/29/2011 - TMDL Element 6 proposed completion date: 04/29/2011 - TMDL Element 7 proposed completion date: 05/20/2011 - TMDL Element 8 proposed completion date: 05/20/2011 - TMDL Element 9 proposed completion date: 06/01/2011

Wisconsin Department of Natural Resources SWIMS Project Summary

Date	Reported By	Status	Comments
04/29/2011	MOLLI MACDONALD	Progress: 75-100% C	- Finished Lake Mallalieu/Willow River TMDL Plan proposed for 06/01/2011. Report provided by Kyle Kulow: St. Croix County has submitted an amendment request to WI DNR for the purpose of extending our grant deadline to June 30th, 2011, from an initial end date of April 30th, 2011. This report is therefore covering our County's activities as they relate to an "ongoing" effort to complete the TMDL Implementation Plan. Currently we have addressed all but element number 9 of TMDL implementation planning. This will be achieved in the coming weeks; with cooperation from WI DNR. A rough draft of the implementation plan will be completed by late May and then reviewed by DNR. We hope to have WI DNR approval by June 30th of 2011, provided our TMDL is also submitted and approved by both EPA and WI DNR. An electronic copy of our grant extension requests' approval will be submitted with this quarterly report.
08/08/2011	MOLLI MACDONALD	Complete	Report provided by Kyle Kulow: We wait for approval of the Lake Mallalieu/Willow River TMDL which will result in our local staff applying for implementation grant dollars; primarily for the purpose of reducing and or eliminating various sources of phosphorus throughout the watershed.

Project Status Detail

Question	Answer
1. Reporting Timeframe (Q1 (Oct-Dec), Q2 (Jan-Mar), Q3 (Apr-June), Q4 (July-Sept):	Q3 (Apr-June),
2. Amount expended this time period:	\$5490.00 (120 Hrs. @ \$45.75/Hr.)
3. Subcontracts or subgrants awarded this period:	none
4. Number work hours created or maintained to date:	802.5 Hrs.
5. Work accomplished this reporting period:	We have completed a soil testing program for homeowners along Lake Mallalieu and have since received results/data from the Marshfield, Wisconsin Soil and Forage Lab. A presentation will be developed and given to the Lake Mallalieu Lake Association in the near future, detailing each participant's result(s). Presenters of data will discuss strategies for drawing down excessively high levels of "P" (Phosphorus). Also, County staff have concluded putting together a "draft" TMDL Implementations Plan for the Lake Mallalieu/Willow River TMDL and have submitted it to WDNR project contacts.
6. Work goals for coming reporting period:	
7. Overall project status:	
8. WDNR Question: Job equivalent Created	

Actions

Action	Detailed Description	Start	End Date	Status
TMDL Planning, Implementation	On agricultural lands, conservation tillage, lowering soil test phosphorus, nutrient management to match fertilizer addition to crop need, along with careful manure handling are important agricultural best management practices that will help achieve the non-point source reduction. Improved agricultural management practices are especially	*****		PROPOSED
