

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: CWA_IR_2008
Name: Clean Water Act 2008
Type: Clean Water Act Reporting
Subtype: Integrated Reporting
Status: COMPLETE
Start Date: 01/01/2008
End Date: 12/31/2008
Purpose: In 2008, the Department of Natural Resources focused staff time and resources on migrating its assessment datasets from stand-alone excel workbooks to the WATERS database. Due to this effort, the DNR did not write up a narrative Water Quality Report to Congress.

In 2008, the department delisted a number of waters from its impaired waters list.

Project Statures

Date	Reported By	Status	Comments
10/06/2012	Lisa Helmuth	Progress: 75-100% C	Partial Approval remained. Muskey Bay added by USEPA. Overall dataset never rectified. USEPA approved different listing information than we sent them, so we analyzed the differences and sent back our interpretation of the differences. This has never been resolved.

Letter for 2008 Impaired Waters List	2008 Impaired Waters List. The failure to list Musky Bay was the basis for the partial approval decision. This decision was later revised to full approval based on EPA's subsequent determination that a lack of sufficient information exists to support the listing of Musky Bay.
