5. Additional Information. (Space will expand to fit your text.)

Soil and Water Resource Management Program funds from DATCP and EQIP funds from NRCS were used to cost-share the installation of the BMP's. SWRM funds cost-shared the NR151 components not covered by the TRM grant. This includes the installation of a barnyard runoff control system, roof runoff system, milkhouse waste water management system, and filter strips. La Crosse County also contributed cost-share money.

6. Summary of Project Challenges. (Space will expand to fit your text.)

Working around wet conditions provided to be a big challenge. Frequent heavy rains this summer prevented contractors from accessing the job sites.
