## Final Report Form 3400-189 (rev. 7/30/09)

- Targeted Runoff Management Grant Program (ch. NR 153)
- Notice of Discharge Program (ch. NR 153)
- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)

**NOTICE**: This Final Report is authorized under ss. 281.65 and 281.66., Wis. Stats., and chs. NR 153 and NR 155, Wis. Admin. Code. Personally identified information collected will be used for program administration and may be made available to requesters as required under Wisconsin Open Records Law [ss. 19.31-19.39, Wis. Stats.].

INSTRUCTIONS: Your grant agreement requires you to submit a Final Report with your final reimbursement request. This Final Report form must be used in conjunction with the "FINAL REPORT INSTRUCTIONS." The instructions detail how to complete and submit the report to DNR as described in the instructions.

| 1. GRANT TYPE. Check the one that applies.   |                          |                        |   |                          |   |               |         |

# Final Report Form 3400-189 (rev. 7/30/09)

- Targeted Runoff Management Grant Program (ch. NR 153)
- Notice of Discharge Program (ch. NR 153)
- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)

| 5. Additional Information. (Space will expand to fit your text.) |
|--|
|--|

In general, the project involved:

The installation of three (3) stormwater treatment devices (Baysaver Units) at the following locations:

Structure #1 - 4800 blk. W. Joleno Lane (5K unit)

Structure #2 - Between 4555 W. Schroeder Drive and 4701 W. Schroeder Drive (10K unit)

Structure #3 - North of 9101 Deerbrook Trail (10K unit)

Three (3) Baysaver Units were installed at the locations listed above. The Baysaver Units were installed at existing storm sewer outfall locations to Beaver Creek. The total lbs of TSS produced in the drainage basins for all three (3) Baysaver Units is 37,091 lbs. The TSS after treatment in each of the Baysaver Units is 32,969 lbs, which equals a percent reduction in TSS of 11.11% as compared to no controls.

#### 6. Summary of Project Challenges. (Space will expand to fit your text.)

Project Challenges included fitting the large Baysaver structures (i.e. two (2) 10-ft diamter manholes) onto the existing storm sewer pipes. In most cases the units had to be placed in "tight" places. Careful consideration had to be given to existing utilities in the area. The work was also done in the winter months so that flow in the existing storm sewer pipes would be minimal

| 7. Grantee Certification.  |                                    |  |  |  |  |

### 8. For Departmental Use Only.

Regional NPS Coordinator – Please complete the following:

- 8.A. Check here if you have received the following from the project sponsor:
  - one (1) printed, signed, original Final Report + attachments
  - one (1) electronic version of Final Report.

Send the printed, signed original Final Report with attachments + electronic version to the Community Financial Assistance Grants Manager. Community Financial Assistance will forward to Runoff Management Section Grants Coordinator.

- Targeted Runoff Management Grant Program (ch. NR 153)
- Notice of Discharge Program (ch. NR 153)
- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)
