I. OVERVIEW

The Town of Neenah developed a parking control ordinance to supplement its street sweeping program. The parking control ordinance prevents landowners from parking vehicles along urbanized Town streets during street sweeping operations, but not along rural Town streets. Based on scientific research, the stormwater quality benefits of the street sweeping program are significantly greater if parked vehicles do not restrict the street sweeper's access to the concrete curb and gutter. A significant portion of sediment, phosphorus and other stormwater pollutants accumulate within a few feet of a street's concrete curb and gutter flow line. A copy of the street sweeping / parking control ordinance is provided in Appendix A.
