Mr. Dennis Robichaud, Chairman
Cedar Lake Inland Lake Protection
and Rehabilitation District
P.O. Box 43
Kiel, Wisconsin 53042

Dear Mr. Robichaud:

Enclosed is a report prepared by the Office of Inland Lake Renewal outlining management alternatives for the Cedar Lake Inland Lake Protection and Rehabilitation District.

Should the Lake District elect an alternative eligible for State financial assistance, it will be the Lake District's responsibility to prepare a detailed program plan which will:

1. Set forth the objectives to be accomplished by the proposed course of action.
2. Provide specifications for carrying out the proposed program.
3. Contain cost estimates adequate to support an application for State financial assistance.

This program plan, together with applications for any State permits which may be required, would be subject to a public hearing to be conducted by a Department hearing examiner. If the program plan and permits were approved subsequent to the hearing, a grant agreement could be prepared by this Office.

If desired, a representative from our Office will meet with your Commission to discuss this report and future courses of action. Contact me at 608/266-3125 if you have any questions or wish to set a meeting date.

Sincerely,
Office of Inland Lake Renewal

Oliver D. Williams
