

Well Construction Report WISCONSIN UNIQUE WELL NUMBER				8DZ197		Drinking Water and Groundwater - DG/5 Department of Natural Resources, Box 7921 Madison WI 53707				Form 3300-077A																																																																																	
Property Owner LAVERN GEARY					Phone #		1. Well Location				Fire # (if avail.)																																																																																
Mailing Address OLIVET ST.					Town of CAMPBELL		Street Address or Road Name and Number																																																																																				
City LA CROSSE					State WI		Zip Code																																																																																				
County La Crosse		Co. Permit #		Notification #		Completed 08-22-1985		Subdivision Name			Lot #		Block #																																																																														
Well Constructor (Business Name) DANIEL RAHN					Lic. #		Facility ID # (Public Wells)		Latitude / Longitude in Decimal Degree (DD)			Method Code																																																																															
Address					Well Plan Approval #		Approval Date (mm-dd-yyyy)		°N		°W		SW		Section 18		Township 16 N		Range 7 W																																																																								
Hicap Permanent Well #					Common Well #					Specific Capacity					2. Well Type																																																																												
3. Well serves # of Home					Hicap Well ?					of previous unique well #					constructed in																																																																												
Private, potable					Hicap Property ?					Reason for replaced or reconstructed well ?					Construction Type																																																																												
Heat Exchange ___ # of drillholes					Hicap Potable ?					Reason for replaced or reconstructed well ?					Construction Type																																																																												
4. Potential Contamination Sources - ON REVERSE SIDE														5. Drillhole Dimensions and Construction Method														8. Geology																																																															
Dia. (in.)				From (ft.)				To (ft.)				Upper Enlarged Drillhole										Lower Open Bedrock										Geology Codes				Type, Caving/Noncaving, Color, Hardness, etc...								From (ft.)				To (ft.)																																											
4				Surface				63				Rotary - Mud Circulation										Rotary - Air										Y				Sand & Gravel								Surface				68																																											
2				63				68				Rotary - Air & Foam										Drill-Through Casing Hammer										Reverse Rotary										Cable-tool Bit ___ in. dia...										Dual Rotary										Temp. Outer Casing ___ in. dia										Removed? ___ depth ft. (If NO explain on back side)										Yes									
6. Casing, Liner, Screen														9. Static Water Level														11. Well Is																																																															
Dia. (in.)				Material, Weight, Specification Manufacturer & Method of Assembly								From (ft.)				To (ft.)				29 ft. _____ ground surface								11 in. above grade																																																															
4				Steel								Surface				63				10. Pump Test								Developed ?																																																															
Dia. (in.)				Screen type, material & slot size								From (ft.)				To (ft.)				Pumping level 30 ft. below surface								Disinfected ?																																																															
Method				Method								Method				Method				Pumping at 10 GP for 2 Hrs.								Capped ?																																																															
7. Grout or Other Sealing Material														12. Notified Owner of need to fill & seal ?														13. Constructor / Supervisory Driller														Lic #				Date Signed
