

Well Construction Report WISCONSIN UNIQUE WELL NUMBER				XP925		Drinking Water and Groundwater - DG/5 Department of Natural Resources, Box 7921 Madison WI 53707				Form 3300-077A																																																																																																																																																																																																																																																																																																																																																													
Property Owner REYNOLDS, LISA						Phone #		1. Well Location				Fire # (if avail.)																																																																																																																																																																																																																																																																																																																																																											
Mailing Address BOX 44						Town of EUREKA						2330																																																																																																																																																																																																																																																																																																																																																											
City ST CROIX FALLS						State WI		Zip Code 54024				Street Address or Road Name and Number																																																																																																																																																																																																																																																																																																																																																											
2330 215TH AVE						Subdivision Name						Lot #		Block #																																																																																																																																																																																																																																																																																																																																																									
County Polk		Co. Permit #		Notification #		Completed		NA				NA		NA																																																																																																																																																																																																																																																																																																																																																									
Well Constructor (Business Name)				Lic. #		Facility ID # (Public Wells)				Latitude / Longitude in Decimal Degree (DD)				Method Code																																																																																																																																																																																																																																																																																																																																																									
LARRY C COX				5324		Well Plan Approval #				45.5196 °N -92.6364 °W		GCD013		NW SE Section Township Range or Govt Lot # 18 35 N 18 W																																																																																																																																																																																																																																																																																																																																																									
Address MILLTOWN PUMP SERVICE MILLTOWN WI 54858						Approval Date (mm-dd-yyyy)				2. Well Type Reconstruction				of previous unique well # constructed in																																																																																																																																																																																																																																																																																																																																																									
Hicap Permanent Well #				Common Well #		Specific Capacity				Reason for replaced or reconstructed well ?				PLUGGED WELL																																																																																																																																																																																																																																																																																																																																																									
Hicap Well ? No				Hicap Property ? No		Hicap Potable ?				Construction Type Driven Point				Heat Exchange ___ # of drillholes																																																																																																																																																																																																																																																																																																																																																									
4. Potential Contamination Sources - ON REVERSE SIDE																																																																																																																																																																																																																																																																																																																																																																							
5. Drillhole Dimensions and Construction Method																																																																																																																																																																																																																																																																																																																																																																							
<table border="1" style="width:100%; border-collapse: collapse;"> <tr> <td style="width: 50%;">Upper Enlarged Drillhole</td> <td style="width: 50%;">Lower Open Bedrock</td> </tr> <tr> <td>Rotary - Mud Circulation</td> <td></td> </tr> <tr> <td>Rotary - Air</td> <td></td> </tr> <tr> <td>Rotary - Air & Foam</td> <td></td> </tr> <tr> <td>Drill-Through Casing Hammer</td> <td></td> </tr> <tr> <td>Reverse Rotary</td> <td></td> </tr> <tr> <td>Cable-tool Bit ___ in. dia...</td> <td></td> </tr> <tr> <td>Dual Rotary</td> <td></td> </tr> <tr> <td>Temp. Outer Casing ___ in. dia</td> <td></td> </tr> </table>														Upper Enlarged Drillhole	Lower Open Bedrock	Rotary - Mud Circulation		Rotary - Air		Rotary - Air & Foam		Drill-Through Casing Hammer		Reverse Rotary		Cable-tool Bit ___ in. dia... 4a. Potential Contamination SourcesIs the well located in floodplain ? No

Type	Qualifier	Distance	Type	Qualifier	Distance
POWTS dispersal component (soil absorption unit or mound)		100	Shoreline/Pool		27
Building Drain - Sanitary		100	Sewer - Building Sanitary		100
Foundation Drain to Sewer		50	Septic or Holding, or POWTS Tank		50
